# Why Choose

Foreign Matter contamination is a constant risk for many industries. Statistics show that food, beverage and pharmaceutical industries are most at risk.

Undetected, such objects can damage equipment; trigger costly product recalls that harm your reputation and can seriously injure consumers.

The use of HACCP management practices help to prevent this by specifying the use of detectable equipment and materials where ever possible.

The principles of HACCP are recognized by the World Health Organization and have been incorporated into regulations such as Europe's Article 5 of EC Regulation 852/2004 and are built into food safety regulations in the USA.

Commercial food processing contracts often require the supplier to hold GFSI recognized food safety certificates issued by independent third party auditors. The contractor is now required to demonstrate that they have taken every precaution to prevent the supply of contaminated product.

Established in 2003, Detectamet Ltd offers innovation, enthusiasm and foresight in abundance. We are ISO 9001:2008, ISO 14001 and ISO 18001 accredited as a measure of our commitment to service, safety and environmental management.

Our key focus is the design, manufacture and supply of x-ray and metal detectable products. We bring you tried and tested concepts to the marketplace and continually developing new and innovative solutions. You can source from the largest and most comprehensive range of detectable products available in the world. This is your best opportunity to reduce the risk of foreign matter contamination.

## Mission Statement

"Detectamet takes pride in offering the World a range of products and services that are second to none. We are passionately committed to innovation in the design and quality of our manufacture. Our pioneering and proactive approach to changes and developments in industry builds and develops our current markets as we continuously explore new opportunities. We derive immense satisfaction from being able to help our customers produce and sell safer consumable products"

## Quality Assurance

Detectamet Products are designed to be Food Safe – not just Detectable, they are:

- Metal detectable and/or x-ray visible
- Visually detectable
- Magnetically attractive
- Use materials that are compliant with European, US and other global standards for food contact use
- Have smooth accessible, cleanable surfaces

The key feature of the products manufactured from Detectamet detectable polymer is that fragments are detected and rejected by standard in-process metal detection and x-ray equipment. All our products are independently tested and meet current EU legislation and US requirements for food contact use.

Visual recognition is also an important feature of the Detectamet range, not just for identification in food product but also for segregation within the factory environment. Detectamet offer the largest range of hygiene Colors currently available on the market. This allows customers to incorporate Blue, Black, Red, Green, Yellow, White, Purple, Orange and Pink into the hygiene control procedures.

## Own Branding

As a manufacturer we can offer you own branding on the majority of our products. This is a part of our commitment to working in partnership with companies wishing to benefit from our designs and bring food safe products to a wider marketplace. This makes Food Safety affordable and achievable for the prevention of foreign body contamination around the world.

# All Things Detectamet

## Detectamet Guardian Award

"I have often described Detectamet's detectable products as the 'Silent Guardians' of food safety" said Sean Smith when he announced a new award to recognize a food processing company's commitment to food safety.

Detectamet's Chairman explained that the Detectamet Guardian Award would be presented to a company that demonstrated its food safety culture by protecting customers and consumers from the risk of physical contamination in its products.

There are three levels of award. Silver, Gold and Platinum and they will be presented in accordance with the level of commitment made by the recipients. Silver awards will go to food companies using more than three detectable products. Gold winners will be employing seven or more products and the users of eleven or more products will have eleven or more products in use to protect their products from plastic contamination.

## SOFHT Company of the Year 2013 & 2015

The SOFHT Company of the Year is awarded to a company with less than 100 employees with a strong focus in Food Safety, by the Society of Food Hygiene and Technology, Britain's premier professional body of food safety practitioners. Detectamet has received this award in 2013 and 2015, it was presented to Angela Musson-Smith, the Group Managing Director/President, and CEO Sean Smith.

Mr. Smith said: "To be recognized by this respected independent body of food safety specialists, for the second time, is a great honour."

"We have launched dozens of new products to improve food safety. We have been honoured for our technical innovation by the Hull and Humber Chamber of Commerce and received the Queens Award for Enterprise in Export."

Mrs. Musson-Smith added: "We strive to meet the food safety needs of the food industry and this award is a further boost to all our staff."

## Queen's Award for Enterprise

(April 2015) It is with great pride that Detectamet Limited is able to announce that the company has been named as a winner of the Queens Award for Enterprise, the UK's highest accolade for business success. The award is in recognition of the company's successful development of International Trade. In the three years prior to recognition Detectamet had continuously increased exports achieving a growth of more than 80%.

The company has a phenomenal staff who design, manufacture and distribute products that are made using Metal and X-ray detectable plastics. If pieces of this plastic end up in the food they will be identified and rejected by the metal or X-ray inspection systems used by many food manufacturing companies.

"Our business is founded on the dual policies of continuous development of products and an undaunted drive to expand our markets" said Sean Smith the company's CEO.

Angela Musson-Smith Detectamet's Managing Director and President explained "When my husband and I started our business in 2003 we could only dream of being honoured by an award such as this. Sean and I are so grateful to our staff, suppliers and local service companies who have helped us to fulfill our hopes and make our dreams come true."

The timing of this award added further impetus to Detectamet's exporting plans. The following month the company opened another office in the USA which has allowed Detectamet to service its growing list of North American customers more efficiently.

Only one other company based in East Yorkshire has won such recognition in the past five years and Detectamet hope its success will encourage other small and medium enterprises in the county to grasp the opportunities of exporting.

26	Detectable Scissors & Holder

The Detectamet stationary range has been developed for food processing and similar applications. Made from metal detectable X-Ray visible polypropylene materials which are high impact resistant. Detectamet products, equipment and materials are suitable for packaging and food contact. Our products meet the requirements of the acts, regulations and orders applicable in Europe and the United Kingdom relating to goods supplied including, but not necessarily limited to, the following:

- **1935/2004 - Materials and Articles Intended to Come into Contact with Food**, and all subsequent amendments (and their transposition into National Law).
- **2023/2006 - Good Manufacturing Practice for Materials and Articles Intended to Contact with Food**, and all subsequent amendments (and their transposition into National Law).

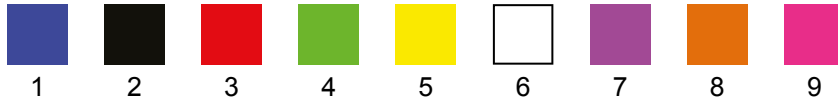

Overall Migration Limits are available for the majority of our products. All our inks are non toxic, meeting the requirements of ISO12757-2 (The International Organization for Standardization published standards for ball point and roller ball pens). Declarations of conformity can be issued for all products.

# DETECTAMET'S STRONGEST DETECTABLE PEN

## A strong loop

To provide users with a resilient loop for lanyard clips, safety chains or split rings.

## A pocket clip that lasts

Strong and virtually unbreakable with a natural connection and grip. Available in three different styles:

Clip

Lanyard

No Clip

## Textured finish

Enhance grip with an 'all over' textured surface to enhance holding across a wide range of wet, dry and hot, cold or ambient environments.

## Detectable throughout

Ensure every component of the pen is detectable. The housing, end cap, spring and ink refill.

## Easily Refillable

Built in refill function to encourage environmental good practice and enable maximum choice of types of ink and colors.

## Cartridge compatibility

Standard, Pressurized, Gel and Fine tip cartridge types will fit securely. Available in these colors: black, blue, red and green.

## Maximise end cap usefulness

Interchangeable end caps to signify the ink color, the ink type, HACCP or seniority signifier. We have nine detectable colors available:

## Reliable and ease of retraction

A large button to deliver a smooth action with continuous easy retraction and inbuilt protection against loss of end cap.

## Shatter proof

Designed to be shatter resistant throughout to avoid small pieces entering food manufacturing lines.

## Retracts every time

Stainless steel spring for a smooth and easy retract every time.

## Ergonomic grip

Build-in natural hold area with triangular cross section for ease of grip with or without gloves.

## Detectable housing

Metal detectable and x-ray visible pen housings meeting FDA and EU regulations for food contact. Available in nine detectable colors:

Designed by a leading  
University Aircraft  
& Space Engineering  
Department  
Maximum strength  
yet lightweight

# Pen Refill Range

Detectamet's pen refills are suitable for the following pen ranges:

**Elephant Pen, HD Pen, Stainless Steel Retractable & Metal Stick.**

## Pressurized

Pressurized 'Cryo' Ink Type  
Almost Unlimited Shelf Life  
Extreme Cold Environments  
Freezers and Cold Stores  
Writes in Wet Areas  
Writes on Powdery Surfaces  
Writes in Greasy & Oily Conditions  
Can Write at Any Angle  
Up to 10,000 meters / 32800 feet writing length  
Ink Colors

100-I11

## Standard

Standard Ink Type  
Ambient Conditions  
Suits Most Environments  
Up to 11,750 meters / 38500 feet writing length

Ink Colors

100-I01

## Gel

Gel Ink Type  
Ambient Conditions  
Cold Environments  
Dusty Environments  
Up to 1062 meters / 3484 feet writing length

Ink Colors

100-I21

## Fine Tip

Fine Tip Ink Type  
Ambient Conditions  
Suits Most Environments  
Special Tip for Extra Fine Writing 0.5mm  
Up to 6500 meters / 21320 feet writing length

Ink Colors

100-I31

## Detectable Highlighter Refill

*Durable chisel tip design is great for highlighting or underlining, producing both broad or fine lines.*

*Available in Blue, Green, Yellow, Orange and Pink ink types or as an assorted pack.*

156-P01-A08

## Detectable Longest Writing Pen Refill

*The longest refill we sell especially designed for our longest writing detectable pen. With this refill you can expect an extra 12,500 meters (7.8 miles) of writing.*

*Available in black or blue.*

100-I41

## Detectable Pen Extras

### Split Ring

### Safety Chain

### Lanyard

### Pen Sleeve

### Own Branding

### Sequential Numbering

Detectamet Detectable plastic pens are all available with pocket clip, without pocket clip or with lanyard attachment facility.

## Detectable Retractable Refillable Gel Pens

Specifically developed for cold environments this unique product offers outstanding writing characteristics in the most adverse conditions. The refill incorporates a stainless steel tip, tough carbon steel ball and a nickel silver tube. These combinations ensure easy flowing when writing in a cold environment.

## Detectable Economy Refillable Retractable Pen

The new Standard Economy Pen from Detectamet incorporates all the basic requirements needed to reduce the risks of product contamination by using detectable equipment. This refillable and retractable pen is available with a blue, black, red or green basic ink in an all metal refill. The blue shell and end cap are made from a plastic polymer that offers double detectability which means that all of the pen, or broken pieces can be identified by standard metal detectors and X-ray systems. Pressing the strong pocket clip will initiate retraction and the ridged grip improves the writers hold on the pen.

## Detactable Calculator Holder

Available in 2 sizes to fit both the Detactable Desktop Calculator and Detactable Handheld Calculator. The New Detactable Calculator Holder keeps calculators safe and secure when not in use, and easy to locate when needed.

Can be manufactured to include magnetic strips for easy and convenient attachment to most ferrous surfaces such as whiteboards, machines or cabinets.

- Easy to clean with drainage slots in the base of the unit
- Wall mountable or with integrated hanging hook
- Available in 8 Colors: Blue, Black, Red, Green, Yellow, White, Purple & Orange.

CODE	DESCRIPTION	PACK QTY
200D-P01	Detactable Desktop Calculator Holder Blue	1
200H-P01	Detactable Handheld Calculator Holder Blue	1

## Detactable Mouse Mat

Manufactured from Food Safe Detactable Material, specifically developed for the food and pharmaceutical industries. This unique product can be used as part of HACCP. Dimensions: 210mm x 160mm x 3mm thick.

CODE	DESCRIPTION	PACK QTY
203-A65-P01-S232	Metal Detactable Mouse Mat	1

## Detactable Keyboard Stand

Detactamet's detactable keyboard station can be used to prevent some of the problems associated with Work-Related Upper Limb Disorder or Repetitive Strain Injury (RSI).

Manufactured from metal detactable and x-ray visible plastic suitable for use in production area environments within the food processing industry. Available in Detactamet's range of 9 Detactable Colors.

CODE	DESCRIPTION	PACK QTY
509-P01	Detactable Keyboard Stand - Blue	1

## Detactable Tape Measure

Detactamet have developed a unique detactable and retractable tape measure for use in food production environments. The 5m/16ft measure is enclosed in a resilient plastic case that is both Metal and X-Ray Detactable.

There are two types of tape. The basic tape is made from oiled steel and offers metric measurement. The alternative is a heavy duty stainless steel tape marked for both imperial and metric measurement.

The slide and stop buttons to pause and fix the tape extension are also made from detactable plastics.

CODE	DESCRIPTION	PACK QTY
468-S575-P01	Detactable 5m/16ft Tape Measure	1
468-S575-P64	Detactable Stainless Steel 5m Tape Measure	1

## Detactable Plastic Rulers

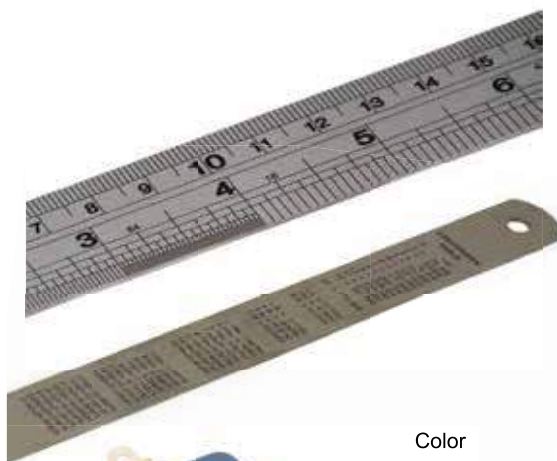

Detactable Plastic Rulers manufactured from Detactamet food safe Detactable Plastic.

Benefits Include: Metal Detactable. Available in 2 sizes: 30cm / 12" & 15cm / 6". Measurements (Imperial & Metric Scale) are molded down either side of the ruler. Blue Color. Bevelled Edge acts as an excellent drawing and drafting guide. Easy to clean, food safe, durable and can be used as part of HACCP.

CODE	DESCRIPTION	PACK QTY
204-P01-S069-X27	15cm / 6" Ruler	5
204-P01-S075-X27	30cm / 12" Ruler	5

## Stainless Steel Rulers

High quality metal rulers manufactured from Stainless Steel. Available in lengths of 150mm (6"), 300mm (12") & 450mm (18"). Features a conversion table on the reverse side.

CODE	DESCRIPTION	PACK QTY
208-P32-S069-X27	15cm / 6" Stainless Steel Ruler	1

## Detectable Magnetic Clipboards

The new Detectamet range of magnetic ring binders and clipboards are very useful for presenting A4, A3 or A5 documents in portrait or landscape orientation.

The strong magnets are added to satisfy each customer's requirement so they do not slide over the surface and can stick to most ferrous surfaces such as whiteboards, metal partitions, machines or cabinets.

Magnetic ring binders and clipboards can be used when implementing visual management on the work floor.

Simply add the magnetic capability to your clip board specification when placing your order.

# Metal Detectable Paper

Detectamet's new metal detectable paper is tear, water, oil, grease and weather resistant, making it ideal for use in a wide variety food production applications where durability and contamination control is vital.

The astonishing durability of Detectamet's detectable paper comes from a patented paper/film/paper laminating process that delivers the toughness of a synthetic sheet with the benefit of an uncoated paper surface.

Sizes available:

- A4 (210mm x 297mm or 8.27" x 11.69")
- USA Letter (8.5" x 11" or 216mm x 279mm)
- Custom sheet sizes available in small quantities.

## Non-Detectable 10 Sheet Staple Free Stapler

You'll never need to buy a pack of staples again with the Detectamet Staple-less Stapler. Fasten up to 10 sheets of paper without the use of a conventional metal staple. Rogue pieces of metal in finished products continue to be an issue in the food industry. The simple solution is to make the food processing areas into staple free zones. However, unstapled essential documents coming into or going out of these areas can be a challenge.

Detectamet have resolved the problems of loose sheets with their staple-less staplers. These simple machines mechanically cut and push a small tongue of paper through the sheets and into a slit so that the papers are securely stitched together. The result is no bits of metal and no loose pieces of paper.

PRODUCT**

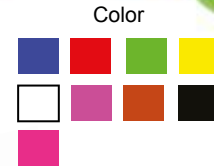

## Detectable Paper Clip

Jumbo paperclip is made from detectable polymer and is suitable for a range of applications (has been used as a detectable keyfob) as well as complimenting our staple-less stapler when larger quantities of paper need to be temporarily secured.

Dimensions:

80 x 40 mm / 3.15 x 1.57 in

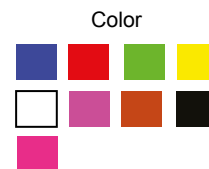

CODE	DESCRIPTION	PACK QTY
210-S243-P01	80mm x 40mm - Detectable Paper Clip - Blue	30

## Detectable Swipe Card Holder

Swipe Card access systems are a popular and simple but effective way to control access. Generally used for commercial buildings within the food, pharmaceutical industries etc; a simple swipe or proximity card would be presented to a card reader located outside the door. When the card is read by the card reader the door will automatically unlock for a predetermined time. Available in blue, red or yellow and with or without safety chain. Other Colors available on request. **NEW DESIGN** means can now be used as Portrait or Landscape.

CODE	DESCRIPTION	PACK QTY
212-A65-A56-P01	Swipecard Holder - Blue	25
212-A65-A55-P01	Swipecard Holder - Blue with Safety Chain	25

## Detectable Retractable Badge Reel

The retractable badge reel is a fantastic way to keep your ID Card/keys attached to your clothing and have them handy when you need them.

- Allows you to keep important items secure and on hand at all times
- Handy back clip attaches easily to your clothing
- The included strong nylon cord extends up to 700mm (27 1/2").

CODE	DESCRIPTION	PACK QTY
217-A65	Detectable Retractable Badge Reel	4

## Detectable Split Ring & Safety Chain

Detectamet Stainless Steel Split Ring & Safety Chains are suitable for food applications, and anywhere a safety chain is required.

The Chain supplied as standard is 30" long and nickel free, the design of the chain will allow it to break if caught in machinery etc.

Longer lengths available on request.

The split ring is supplied as standard 20mm / 0.80" diameter

Suitable for use with all Detectamet pens that have a clip, Keyfobs etc

CODE	DESCRIPTION	PACK QTY
153-T203	Split Ring	10
155-P44-S083-A93	30" (762mm) Stainless Steel Safety Chain	10
155-P44-S083-A94	Stainless Steel Safety Chain 1m Length	1
152-P32	Stainless Steel Connecting Clasp	50

## Portable 'Cling Easy' Whiteboard

Detectamet are now able maximize the use of our unique range of hygienic clipboards, ring binders, lever arch files, mobile desks, memo holders etc. by applying a new and revolutionary whiteboard surface to each and every item. Detectamet will supply the New 'Cling Easy' Whiteboard material separately on a roll of 1000mm x 1200mm (1.09yds x 1.31yds) or 1000mm x 3000mm (1.09yds x 3.28yds).

CODE	DESCRIPTION	PACK QTY

Detectamet storage, mixing and handling equipment has been developed for food processing and similar applications. Made from metal detectable X-Ray visible polypropylene materials which are high impact resistant. Detectamet products, equipment and materials are suitable for packaging and food contact. Our products meet the requirements of the Acts, regulations and orders applicable in Europe and the United Kingdom relating to goods supplied including, but not necessarily limited to, the following:

- **1935/2004 - Materials and Articles Intended to Come into Contact with Food**, and all subsequent amendments (and their transposition into National Law).
- **2023/2006 - Good Manufacturing Practice for Materials and Articles Intended to Contact with Food**, and all subsequent amendments (and their transposition into National Law).

Overall Migration Limits are available for the majority of our products.

# Metal Detectable Powder Scoops

## Detectable Flexible Scrapers

The products in this range are produced from specially formulated materials based on high impact food safe polypropylene and nylon. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. In line with typical color coding systems, our metal detectable range is available in blue, red, green, yellow, white, purple, orange, black & pink. Available with Leading Edge technology for a more robust scraping edge (blue only).

Small Size: 160mm x 103mm x 1.85mm (6.3" x 4.1" x 0.073")  
Large Size: 225mm x 120mm x 2.1mm (8.86" x 4.72" x 0.083")

CODE	DESCRIPTION	PACK QTY
523-S089-T103-P01	Detectable Polypropylene Flexi Scraper - Small - Blue	5

523-S091-T097-P01	Serrated Edge Flexi Scraper - Large - Blue	5

Features serrated scraping edge ....

.... as well as 3 tapered scraping edges.

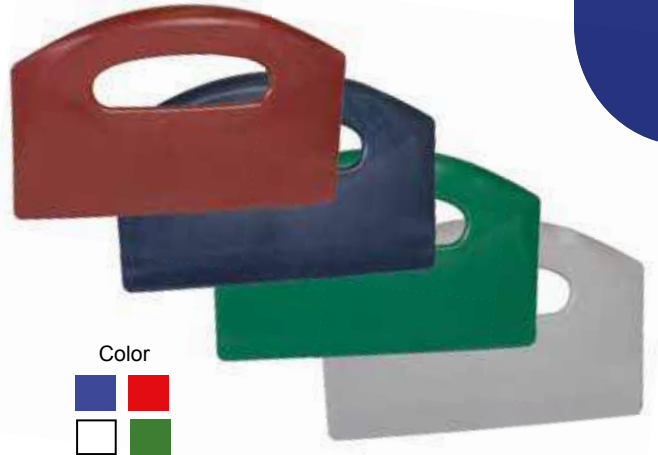

## Detectable Color-Coded Bench Scrapers

This metal detectable & x-ray visible bench scraper is an excellent solution for your bench top scraping needs. The semi-ferrous additive in this product allows for use in conjunction with a metal and x-ray detectable system. Made with food grade, impact resistant polypropylene, it is lightweight and a less costly alternative to stainless steel.

Dimensions: 8.3" x 5.1" (210mm x 130mm)

CODE	DESCRIPTION	PACK QTY
523-S240-T389-P01	Detectable Color-Coded Bench Scraper - Blue	1

## Detectable Handle Stainless Steel Scraper

High quality heavy duty detectable scrapers. Ideal for gasket scraping, removal of rust or other debris from difficult to reach areas. Made with a stainless steel blade for extra strength & an easy grip handle made from our detectable plastic.

CODE	DESCRIPTION	PACK QTY
586-W11-Q03-S235	Stainless Steel Scraper - 20mm (0.79") Wide Blade	1
586-W11-Q03-S234	Stainless Steel Scraper - 16mm (0.63") Wide Blade	1
586-W11-Q03-S233	Stainless Steel Scraper - 12mm (0.47") Wide Blade	1

## Scraper With Detectable Handle

The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene, which has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. The blade on these scrapers are made from stainless steel for more robust applications.

Flexi Scraper Size - Blade 65mm x 120 mm, Handle 20mm x 120mm x 70mm.

Blade 2.56 in x 4.72 in, Handle 0.80 in x 4.72 in x 2.76 in

Rigid Scraper Size - Blade 80mm x 150 mm, Handle 50mm x 150mm x 70mm.

Blade 3.15 in x 5.91 in, Handle 1.97 in x 5.91 in x 2.76 in

CODE	DESCRIPTION	PACK QTY
522-T095-W11-Q03	Flexi Scraper - Stainless Steel with Detectable Handle	1
522-T096-W11-Q03	Rigid Scraper - Stainless Steel with Detectable Handle	1

## Stainless Steel Dough Cutter

This handy tool can be used for sectioning dough, cleaning moist dough from floured boards, lifting delicate foods from cookie sheets and much more. Blade dimensions: 150mm (6") x 90mm (3 1/2"). Handle diameter: 50mm (2").

CODE	DESCRIPTION	PACK QTY
519-P32-T160	Stainless Steel Dough Cutter	1

## Floor Scraper with Flexible Stainless Steel Blade

The Floor Scraper is a very efficient tool for removing process floor debris and caked on deposits with ease from concrete, tile and other hard floors. It is designed and made to be rigid and resilient when removing dried-on materials before cleaning on large flat surface areas.

Dimensions: Length 1315mm (51.77")

Blade Length: 195mm (7.67") Blade Width: 77mm (3")

**NEW  
PRODUCT**

CODE	DESCRIPTION	PACK QTY
677-S628	Stainless Steel Floor Scraper	1

## Detectable Flexible Palette Knife

The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. Available in Blue color only.

CODE	DESCRIPTION	PACK QTY
521-T102-P01	Detectable Flexible Palette Knife	1

## Detectable Spatula

These Spatulas are made with high impact food safe polypropylene, which has the ability to be detected and rejected by typical metal detection and x-ray machines. Available in Blue color only.

Dimensions: 160mm / 6.3in long x 6.85mm / 0.27 in diameter shaft  
20mm / 0.79in wide blade x 0.74mm / 0.029in thick

CODE	DESCRIPTION	PACK QTY
518-S261-P01	Food Safe Detectable Spatula	10

## Detectable Spatula with Scraping Edge

The NEW X-Ray Visible Spatula/Scraper is produced from a specially formulated material based on high impact food safe polypropylene, giving it the ability to be detected and rejected by typical metal detection machines used in the food processing industry. Designed with a tapered edge for better cleaning, and lightweight making it easy to handle, while remaining tough and durable.

- Handle length - 120mm (4.72") - Total length - 270mm (10.63")
- Blade - 150mm (5.91") x 22mm (1")
- Hole size - 15mm x 7mm (0.6" x 0.3")

## Detectable Flour Scoops

This scoop has clearly marked inner graduation marking for easy and accurate measurements allowing scooping of ingredients such as flour and sugar. The handle offers a sturdy, comfortable grip and has a hanging hook for easy storage. Made in Britain from Detectamet's Detectable high impact durable polypropylene plastic, each scoop has its size stamped on the handle for instant recognition. It also stacks nicely, and the flat bottom means that this scoop will sit flat on counter tops and tables when not in use.

CODE	DESCRIPTION	PACK QTY
515-S089-S048-P01	Small Detectable Flour Scoop (250ml / 8.8oz) L 155mm (6") x W 50mm (2") x D 40mm (1.5")	5
515-S090-S050-P01	Medium Detectable Flour Scoop (500ml / 17.6oz) L 195mm (7.5") x W 60mm (2.3") x D 50mm (2")	5
515-S091-S051-P01	Large Detectable Flour Scoop (1000ml / 35.2oz) L 245mm (9.7") x W 75mm (3") x D 60mm (2.3")	5

## Detectable Jugs/Pitchers

1 Liter (1.75 pints) and 2 Liter (3.5 pints) Food Safe Metal Detectable Jugs/ Pitchers. Available in three styles to suit various applications.

A graduated Food Safe Detectable Jug/Pitcher with 2 style of pouring lip.

- Will hold 1 Liter (1.75 pints) or 2 Liter (3.5 pints) of liquid.
- Graduation marking are on the inside of the Jug/Pitcher.
- A Flat sided Food Safe Detectable scooping Jug/Pitcher.
- Will hold 3.5 pints or 2 Liters of liquid.
- Graduation marking are on the inside of the Jug/Pitcher.

CODE	DESCRIPTION	PACK QTY
535-S012-T100-P01	1 Liter Stackable Pouring Jug/Pitcher	1
535-S018-T100-P01	2 Liter Stackable Pouring Jug/Pitcher	1
535-S018-T101-P01	2 Liter Scooping Jug/Pitcher	1

## Detectable Jugs/Pitchers with Lids

These 1 Liter (1.75 pint) capacity Jugs/Pitchers are manufactured from Detectamet's metal detectable and x-ray visible plastic which is tough, durable and easy to clean.

Detectable Jugs/Pitchers with lids are ideal for an liquid or granular material that needs to be covered between uses within production areas.

CODE	DESCRIPTION	PACK QTY
535-S012-T390-P01	Detectable Jug/Pitcher with Lid - Blue	1

## Detectable Bucket/Pail With Lid

With a 12 Liter (3.17 Gallon) capacity and a sturdy hinged lid it can be used for handling and holding liquids, powders or solid ingredient pieces. The dual detectable polymer that is used to make it has been tested and approved to meet EU and US FDA requirements for contact with food and consumable liquids.

The sturdy plastic handle and lid are firmly and safely attached but they can be removed from the Bucket/Pail for storage and cleaning. The Bucket/Pail can be supplied in a range of color choices so that a stock of differently colored Buckets/Pails can each be reserved for specific tasks and thereby reduce the risk of cross contamination.

Currently available in Blue & Red.

CODE	DESCRIPTION	PACK QTY
505-P01-S031-A42	12 Liter Detectable Bucket/Pail with Lid - Blue	1
505-P03-S031-A42	12 Liter Detectable Bucket/Pail with Lid - Red	1

## Detectable Buckets/Pails

The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. The Bucket/Pail is suitable for all cleaning requirements within food factories / recommend to use with Detectamet brushes and can also be used for carrying and storing food.

CODE	DESCRIPTION	PACK QTY
505-P01-S028-A146	9 Liter Bucket/Pail - Blue	1
533-S029-A54	10 Liter Economy Bucket/Pail with Lid - Blue	1
533-S029-A200	10 Liter Economy Bucket/Pail with Lid - Red	1
533-S029-A201	10 Liter Economy Bucket/Pail with Lid - Yellow	1
533-S029-A202	10 Liter Economy Bucket/Pail with Lid - Green	1

## Detectable Sampling Knives, Forks & Spoons

Sample with less risk of foreign material contamination with the new Detectamet sampling tools. Ideal for taking, prepping and handling samples. The knives, forks and spoons are sold separately in packs of ten and have been specifically designed to reinforce the claim of using "all due diligence". The sturdy knife, fork and spoon are able to extract and take samples from most materials and the spoon will hold a 15ml(3tsp) sample.

CODE	DESCRIPTION	PACK QTY
532-P01	Detectable Sampling Knife	10
529-P01	Detectable Sampling Fork	10
527-P01	Detectable Sampling Spoon (15ml/3tsp)	10

## Detectable Sampling Cups & Beakers

The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. Available in blue only.

CODE	DESCRIPTION	PACK QTY
502-T208	Detectable Sampling Cup - 1/2 pint (1 cup/8oz)	1

## Detectable Measuring Cups and Spoons

These sets of measuring cups and spoons make it easy to add the right amount of ingredients to any recipe and they even come with a plastic ring to ensure no spoon can be lost.

Manufactured from Detectamet's market leading detectable polymer, ensuring that even the smallest fragment can be detected and rejected by in-line metal and x-ray detectors commonly found in the food industry.

- Measuring spoons - 2.5ml (1/2tsp), 5ml (1tsp), 10ml (3tsp) and 15ml (1tbsp).
- Measuring cups - 1/4cup (60ml 2 fl oz), 1/3cup (80ml 3 fl oz), 1/2cup (125ml 4 fl oz), 1cup (250ml 9 fl oz).

## Detectable Stackable Trays With Lids

This new detectable tray from Detectamet is ideal for safely transporting and storing products and ingredients. Complete with a lid and a stackable design this is ideal for storage. This tray is also designed with food factory conveyors in mind, perfectly sized for a standard food factory conveyor system.

Dimensions:

- Internal = W: 370mm (14 1/2"), L: 570mm (22 1/2"), D: 115mm (4 1/2").
- External = W: 400mm (15 3/4"), L: 600mm (23 3/4"), D: 120mm (4 3/4")

Weight:

- Total = 2.3kg (5.07lbs)
- Tray = 0.85kg (1.87lbs)
- Lid = 1.45kg (3.2lbs)

Volume:

- 20 Liters / 5.28 Gallons / 1220 Cubic Inches

CODE	DESCRIPTION	PACK QTY
534S-A208	Detectable Stackable Tray - Tray Only	1
534S-A209	Detectable Stackable Tray Lid - Lid Only	1

## Detectable Storage Trays

- Full dispersion of detectable elements throughout the product
- Available in 2 Sizes/4 Colors
- Stackable and Non-Stackable
- Lightweight and easy to handle yet tough and durable
- Magnetically Detectable & X-ray visible
- Easy to clean

CODE	DESCRIPTION	PACK QTY
506-T162-S156-P01	Small Stackable - 280 x 400 x 74 mm (11.02" x 15.75" x 2.91")	1
506-T163-S157-P01	Large Non-Stackable - 288 x 403 x 155 mm (11.34" x 15.87" x 6.1")	1

## Detectable Storage Containers

Manufactured from Detectamet's Detectable Plastic and available in blue.

Detectable Rectangular Container

- Dimensions: 130mm (5") x 190mm (7 1/2") x 80mm (3")
- Capacity: 1700ml (57.5 fl oz)

Detectable Square Container

- Dimensions: 115mm (4 1/2") x 115mm (4 1/2") x 75mm (3")
- Capacity: 800ml (27 fl oz)

CODE	DESCRIPTION	PACK QTY
507-S145-P01	Detectable Rectangular Container	1
508-S140-P01	Detectable Square Container	1

## Detectable Containers with Airtight Lid

Manufactured from Detectamet's Detectable Plastic and available in blue.

- Round Bowl - Depth 90mm (3 1/2"), Base Diameter 235mm (9 1/4"), Lid Diameter 305mm (12"), Capacity 4000ml (135.25 fl oz)
- Square - Depth 75mm (3"), Base Dimensions 230mm x 230mm (9" x 9"), Lid Dimensions 265mm x 265mm (10 1/2" x 10 1/2"), Capacity 2500ml (118.5 fl oz)

CODE	DESCRIPTION	PACK QTY

516-Z02-P01-A40	Detectable Square Container with Detectable Airtight Lid	1

## Detectable Storage Boxes

A versatile detectable storage box with clip fastening lid. Useful for any number of applications from holding test pieces, first aid dressings, coins and keys etc. The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry.

CODE	DESCRIPTION	PACK QTY
503-P01-A42	Large with Secure Locking Clips - Blue Only L 220 x W 145 x D 45mm (8.66" x 5.71" x 1.77")	1

## Fully Detectable Storage Tub

This storage container can be used not only for Disinfectant/Probe wipes but for several other storage opportunities such as; Stationary, Cable/Zip Ties, Engineering equipment and other tools that just need a presentable container to protect against environmental hazards.

Dimensions:

- Small Size - Height: 150mm (5.91")  
Diameter: 78mm (3.07")
- Large Size - Height: 228mm (8.98")  
Diameter: 105mm (4.13")

CODE	DESCRIPTION	PACK QTY

## Detectable Shovels

The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry. To bring this range into line with typical color coding systems, our metal detectable shovels are available in blue.

CODE	DESCRIPTION	DIMENSIONS
530-S248	Detectable D-Grip Shovel - Short Handle, Large Blade	1040 x 327 x 271mm (41" x 12.9" x 10.7")
530-S246	Detectable Hand Shovel	545 x 270 x 330mm (21.5" x 11" x 13")

## Detectable Color-Coded Shovels

Detectamet's one-piece polypropylene shovels are tough, lightweight and hygienic. Molded from FDA-compliant polypropylene, it is a workhorse for moving bulk materials and an integral part of any professional cross contamination, food safety or HACCP program. The semi-ferrous additive in this shovel allows for use in conjunction with a metal detectable system. Metal detectable plastic is a lightweight and less costly alternative to stainless steel, and will reduce fatigue for the user. This shovel is popular for meat, dairy, seafood, and poultry processing, as well as commercial fishing and other food handling applications.

Dimensions:

11" - 959 x 261 x 181mm  
(37.75" x 10.25" x 7.1")

14" - 1086 x 350 x 235mm  
(41.75" x 13.75" x 9.25")

CODE	DESCRIPTION	PACK QTY
530-S861	11" Detectable Color-Coded Shovel - Blue	1
530-S863	11" Detectable Color-Coded Shovel - Red	1
530-S864	11" Detectable Color-Coded Shovel - Green	1
530-S866	11" Detectable Color-Coded Shovel - White	1
530-S871	14" Detectable Color-Coded Shovel - Blue	1
530-S873	14" Detectable Color-Coded Shovel - Red	1
530-S874	14" Detectable Color-Coded Shovel - Green	1
530-S876	14" Detectable Color-Coded Shovel - White	1

## Detectable Paddles

Designed for a wide range of applications, our paddles are effective in both liquid and solid materials, suitable for stirring food ingredients in large pots and vats. Detectamet Fully Metal Detectable One Piece Paddles are available with or without holes in the paddle head. Each paddle is virtually unbreakable, lightweight, easy to clean and store, has excellent wear resistance whilst reducing the risk of damage to floor surfaces and machinery. Paddle with Holes available in Blue only

Dimensions:

With Holes: Length - 1200mm (47.25")  
Head Width - 160mm (9.75" x 6.25")

Without Holes: Length - 1320mm (52")  
Head Width - 150mm (5.9")

CODE	DESCRIPTION	PACK QTY
531-S249-A50	Large Paddle with Holes - Blue only	1
531-S853-A51	Large Paddle without Holes - Blue	1

## Detectable Dustpan

Ideal for use in the food industry, the new Detectable Dustpan is sturdily made with an ergonomically shaped handle to control the 300mm (12") wide pan edge. The thicker ridge behind the edge is designed to allow the rubbish to be swept into the tray and the ridge offers a barrier to reduce the risk of dirt falling back onto the floor.

CODE	DESCRIPTION	PACK QTY
511-P01	Detectable Dustpan - Blue	1
511-P02	Detectable Dustpan - Red	1

## Fully Detectable Resin Set Brushes

Detectamet's Detectable Resin-Set Brushware boasts a revolutionary improvement in brush filament retention known as the Double Detainment System. This unique approach uses both food grade stainless steel staples and a detectable Anti-Microbial resin to secure the tufts to the brush back. This not only prevents the accumulation of dirt and moisture in the tuft holes but also prevents the release of filaments into the food or drink processing environment. All Plastic bases, resins and filaments are fully detectable. Minimizes the loss of brush filaments due to the Double Detainment System

- Detectable anti-microbial resin inhibits the growth of bacteria and accumulation of moisture and dirt
- Metal detectable & X-Ray Visible brush body, resin and filaments
- Available in Blue color
- Usage temperatures from -18°C to 79°C
- Autoclavable at temperatures up to 134°C/275°F
- Made using FDA approved materials
- HACCP compliant

## Fully Detectable Brushes and Brooms

Brushes and brooms are essential tools for processing and cleaning in the food industry and this new range significantly increases the choice of detectable brushes to satisfy a wide range of special and general tasks.

Made from Detectamet's unique plastic polymer these products are completely detectable from the bristles to the top of the handles and are safe for use in a food environment and have been manufactured to be heavy duty and long lasting.

CODE	DESCRIPTION	DIMENSIONS (mm)
510-T111-A45	Nail Brush - Soft Bristles	115x43x46 Bristles 23
510-T112-A45	Dish Brush - Soft Bristles	235x40x50 Bristles 30
510-T112-A46	Dish Brush - Medium Bristles	235x40x50 Bristles 30

# Detectacloth® Metal Detectable Cleaning Cloths

The cost of a recall to a food company could be up to \$10m USD in direct costs and additional brand damage and lost sales.

Detectamet's new patent pending detectable cleaning cloths and wipes are designed to help reduce the risk of foreign object contamination in food processing areas.

Multi-purpose metal detectable dry wipes:

- Dry, nonwoven multi-purpose towel that is detectable by metal detection equipment.
- Reduce concerns of food product contamination and assist with HACCP requirements.
- Helps to mitigate risk of foreign object contamination.
- Helps to prevent product loss by targeting contaminated area through metal detection.
- Helps to prevent costly product recall and damage to your brand.
- Disposable wipe is suitable for everyday wiping tasks in critical processing areas.
- Size 10" x 12" (254mm x 305mm).
- Pack size 100 wipes per box.

**NEW  
PRODUCT**

CODE	DESCRIPTION	PACK QTY
471-X11-P76	Multi-Purpose Metal Detectable Dry Wipes	100

## Fully Detectable Squeegees

The Squeegee is a very efficient tool for clearing moisture from flat surfaces, and wherever water is used for cleaning large surfaces or where condensation occurs and needs to be removed.

The Detectamet Squeegees incorporate the metal and X-ray detectability in the rigid and in the flexible parts without compromising their efficient performance. Whichever inspection system is used when contamination occurs it can be detected and the product rejected before it triggers an expensive product recall.

CODE	DESCRIPTION	PACK QTY
526-P01-A28	Detectable Table Top Squeegee with Handle	1
526-P01-A29	Detectable Floor Squeegee	1
526-P01-A48	Stainless Steel Handle w/ Detectable Grip to Fit Squeegee	1
526-P01-A43	Fully Detectable Handle to Fit Squeegee	1

## Detectable Hammer/Mallet

Detectable Plastic Hammer/Mallet incorporates a detectable plastic head. The handle is standard plastic. The Hammer/Mallet offers high impact, durability and high abrasive resistance. Detectamet Detectable Plastic Hammer/ Mallet heads are fitted to a plastic handle to meet Food Hygiene Regulations.

CODE	DESCRIPTION	PACK QTY
810-S056-P01	25mm Diameter Head - Blue	1
810-S062-P01	50mm Diameter Head - Blue	1
810-S066-P01	80mm Diameter Head - Blue	1

## Detectable Prover Pockets

This pocket consists of a metal detectable plastic frame and a polyethylene mesh, allowing metal detectors to reject product containing broken fragments of frame. The open mesh provides excellent air permeability around the dough, and the pockets' design enhances and helps to achieve superb cleaning results.

- Dimensions: 168 x 187 x 85mm (6.6" x 7.4" x 3.3").

CODE	DESCRIPTION	PACK QTY
520-P01-A38-S144	Detectable Prover Pockets	1

# Shadow Boards

Shadow boards are widely used across most food factories for correctly storing a wide variety of equipment. A shadowboard is a significant tool for operational efficiency and provides the opportunity to have equipment where it is needed with rapid visual assessment, coupled with traceability controls. Perfect in conjunction with initiatives such as 5S & Six Sigma.

Virtually any tool can be accommodated on a shadow board with integrated stainless steel fixings and purpose made holders offering the opportunity to ensure relevant equipment is always at hand and traceable in conjunction with internal systems that often include the necessity to mark the boards with indicators for cross referencing.

**NEW  
PRODUCT**

- Enhances any hygiene program
- Reduces risk of cross contamination
- All tools kept off the floor
- Any size and a large range of colors
- Heavy duty anti-scuff laminate to extend life span
- Wall mountable or free standing versions available

## Detectable Rubber Bands

High Quality Detectable Rubber Bands designed & developed specifically for use in the food industry. As well as being Metal Detectable & Magnetic, the NEW rubber bands are manufactured in a highly visible blue color to aid in detection. Sold in packs of 50 (Bulk quantities also available). More sizes coming soon and bespoke sizes and colors available on request. Please contact [sales@us.detectamet.com](mailto:sales@us.detectamet.com) for more information.

CODE	DESCRIPTION	PACK QTY
821-S161-X09	80mm x 6mm x 1mm (3.15" x 0.24" x 0.039")	50
821-S160-X09	70mm x 6mm x 1mm (2.76" x 0.24" x 0.039")	50
821-S158-X09	60mm x 6mm x 1mm (2.36" x 0.24" x 0.039")	50

## Detectable Bag Gripper / Sealer

Reduce the risk of cross contamination and preserve hygienic standards by securing bag contents with this unique Food Safe Detectable Bag Gripper / Sealer.

The locking ability of the Detectable Bag / Sack Gripper will help to minimise the risk of contamination, leakage and accidents within your plant / processing area.

CODE	DESCRIPTION	PACK QTY
805-S231-T098	Detectable Bag Gripper / Sealer	5

## Detectable Plastic Bag Clip / Closure

The NEW Detectamet Detectable Plastic Clip / Closure is fully Metal Detectable & X-Ray Visible. Durable at very low temperatures of -50°C / -58°F.

- Sealing length: 320mm - 12.5 inch
- Total length: 362mm - 14.3 inch
- Weight: 94g.

CODE	DESCRIPTION	PACK QTY
804-S236	Detectable Bag Clip	1

## Detectable Reusable Releasable Nylon Cable/Zip Ties

Specifically designed for use within the food and pharmaceutical industries. Ideal for sack and bag tying etc. Made from strong and durable nylon. Now available as a release and reusable tie.

CODE	DESCRIPTION	PACK QTY
800-CT02-S120-X39	250mm x 4.7mm (9.84" x 0.19")	100

## Detectable Polythene Bags & Liners

Recent internal industry reports on sources of physical contamination of food found that at least 34% of incidents involved process and product packaging. The New Fully Detectable Bag offers the food industries a less risky means of packaging for bulk handling in food warehouse storage and shipping.

Can be made in a variety of widths, lengths, thicknesses, colors and films to suit all your applications and can be made plain or printed in up to 6 colors.

Suitable applications for Detectable Polythene Bags, Liners & Covers include:

- Food bags
- Bin liners
- Box liners
- Extra large heavy duty ingredients bags
- Dolav liners
- Pallet covers
- Sheets and film

**NEW  
PRODUCT**

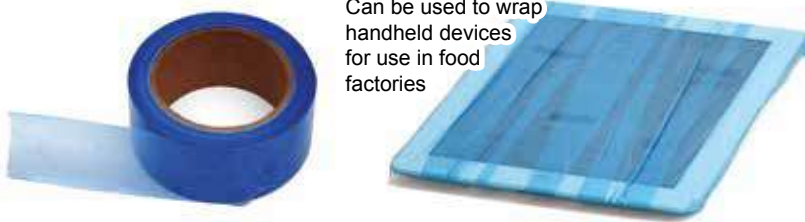

## Detectable Stretch Wrap

The new Detectable Stretch Wrap is a safer way of wrapping raw ingredients such as block frozen meats and fish and for bulk wrapping pallets in food warehouse storage and shipping.

To help reduce the risk of food contamination Detectamet's NEW Detectable Stretch Wrap is detectable by metal detector systems. The distinctive blue color is an extra visual aid to identification if contamination happens. Detectamet's new stretch wrap tape provides producers of fresh foods, fruits, vegetables and chilled products with a pallet stabilizing solution that allows for ventilation and prevents product spoilage. Unlike traditional Stretch Wrap Film, Stretch Wrap Tape does not cause fresh produce to 'sweat' beneath the film.

CODE	DESCRIPTION	PACK QTY
546-S221-P01	Detectable Stretch Wrap - 400mmx 200m x 30micron(15.75" x 0.12miles x 0.0012")	1 Roll
546-S228-P01	Detectable Stretch Wrap - 500mm x 800m x 30micron(1'7.625" x 2'7.5"	1 Roll
547-S147	Detectable Stretch Wrap Tape - 50mm x 65m x 25micron	1 Roll

## Detectable & Non-Detectable Disposable Polythene Tote Bin/Buggy Covers

The Detectamet disposable plastic Euro/Tote Bin/Buggy covers easily stretch over standard 300 and 200 Liter stainless steel Tote Bin/Buggys providing a hygienic tight seal reducing the risk of product contamination.

Product can be easily identified using our Color coding disposable Tote Bin/Buggy covers. Available in Blue, Red, Yellow & Green.

- Size: 830mm (2ft 8.6in) x 620mm (2ft 0.63in) x 38 micron.

CODE	DESCRIPTION	PACK QTY
545-A65-P01-X34	Detectable Polythene Tote Bin/Buggy Covers - Blue	Roll 250
545-A65-P03-X34	Detectable Polythene Tote Bin/Buggy Covers - Red	Roll 250
545-A65-P04-X34	Detectable Polythene Tote Bin/Buggy Covers - Green	Roll 250
545-A65-P05-X34	Detectable Polythene Tote Bin/Buggy Covers - Yellow	Roll 250
545-A65-P01-X34	Non-Detectable Polythene Tote Bin/Buggy Covers - Blue	Roll 250
545-A65-P03-X34	Non-Detectable Polythene Tote Bin/Buggy Covers - Red	Roll 250
545-A65-P04-X34	Non-Detectable Polythene Tote Bin/Buggy Covers - Green	Roll 250
545-A65-P05-X34	Non-Detectable Polythene Tote Bin/Buggy Covers - Yellow	Roll 250

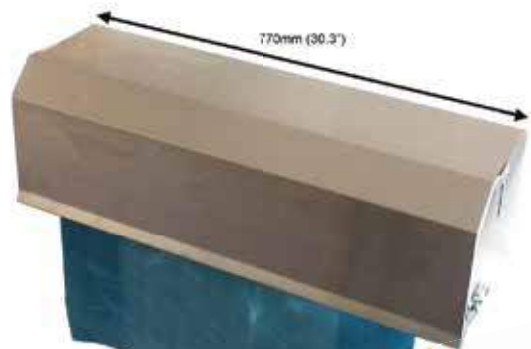

## Stainless Steel Tote Bin/Buggy Cover Dispenser

Made in Britain from high quality stainless steel, the Tote Bin/Buggy cover dispenser from Detectamet is designed to accommodate a roll of 250 Tote/Euro Bin/Buggy covers.

The dispenser is wall mounted and features a latch secured and hinged lid for quick and easy refilling. A view slot on the side makes it easy to see when the roll is about to run out.

Width: 770mm (30 1/3"), Height: 220mm (8 1/2"), Depth: 220mm (8 1/2").

CODE	DESCRIPTION	PACK QTY
589-T198	Stainless Steel Tote Bin/Buggy Cover Dispenser	1

## DETECTABLE BANDAGES

43	Metal Detectable Bandages
43	X-Ray Detectable Bandages
43	Detectable Storage Box

Blue Food Safe Metal Detectable Bandages and dressings.

We offer a wide range of Detectable Bandages and dressings to suit every customers needs and budget. Electromagnetic Detection and visual blue Bandages/dressings are ideally suited for the food industry where the necessary detection equipment is operational.

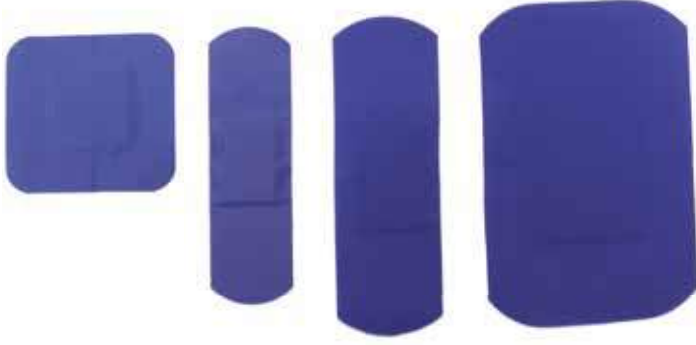

Key benefits include :

- Hypoallergenic adhesive
- Blue in color to assist detection
- Sterile and individually wrapped
- Allows in to breathe
- Microporous structure
- Complies with Food & Hygiene Regulations SI1990 & No1431
- Comprehensive Range
- Comfortable
- Washproof

# Metal Detectable Bandages

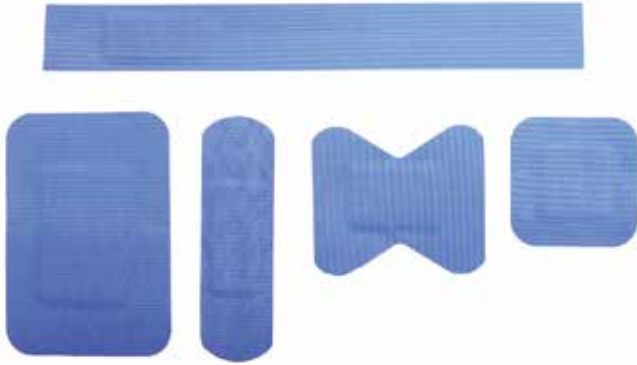

Electromagnetic Detection and visual blue bandages/plasters are ideally suited for the food industry where the necessary detection equipment is operational. The metal strip positioned behind the lint pad is the key component for detection. Please note if packaging in your factory contains aluminum we recommend the use of X-Ray visible Bandages if both detection systems are installed.

CODE	DESCRIPTION	PACK QTY

Electromagnetic Detection coupled with X-Ray detection! Our visual blue bandages are ideally suited for the food industry where the necessary detection equipment is operational. Two types metal strip which are positioned behind the lint pad are the key component for detection.

## Detectable Storage Boxes

A versatile detectable storage box with clip fastening lid. Useful for any number of applications from holding test pieces, first aid dressings, coins and keys etc. The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry.

CODE	DESCRIPTION	PACK QTY
503-P01-A42	Large with Secure Locking Clips - Blue Only L 220 x W 145 x D 45mm (8.66" x 5.71" x 1.77")	1

**SAFETY KNIVES / CUTTERS**

47	Detectable Safety Knives
53	Security Cages
53	Shadow Boards
54	Professional Knives
56	Detectable Palette Knives
56	Detectable Sharpening Steel
56	Detectable Cutting / Chopping Board

The SK Series of Safety Knives and Cutters can offer you a wide range of knives to suit most applications.

Lost or unlocated cutters in food operations can now be readily detected!

All cutter bodies are made from metal detectable material, and are supplied as standard in blue. Other colors are available on certain styles.

GS Tested for Safety technology

Stainless Food Contact Approved blades

The basic criteria for a knife or cutter to be included in the Detectamet range of metal detectable safety cutters will meet with the following:

A genuine safety knife with a safety index of 4 or less (1 = bladeless, 2 = enclosed blade, 3 = fully automatic blade retraction, 4 = semi automatic blade retraction, 5 = manual blade retraction)

A knife which has a low risk of breaking into fragments with minimum parts

We can also supply the range of safety knives and cutters in standard non-detectable materials.

## Here are some typical jobs and challenges for the Detectamet safety knife range

### Cardboard

#### Challenges:

Depth of cut without damaging contents. Clean, straight, single cut to prevent loose cardboard pieces as a potential contamination.

### Plastic Adhesive Tape

#### Challenges:

Depth of cut without damaging contents. Accurate, straight, single cut for efficient working.

### Pallet Strapped Boxes

#### Challenges:

Efficient strap cutting to achieve single cut and avoid loose shards of plastic strap as a potential contaminant.

### Film Wrapped Boxes

#### Challenges:

Depth of cut without damaging contents. Ideal vertical action to cut through multiple film layers for straight forward unwrapping. Beware of loose film.

### Sacks/ Plastic Bags

#### Challenges:

Clean, straight, single cut to prevent loose sack material as a potential contamination. *You can also use our detectable polyethylene bags for complete quality assurance.*

### Bubble Wrap

#### Challenges:

Multi-layer structure of the wrap requires controlled presentation to the blade for a single cut. Multiple cutting leaves multiple waste pieces - potential contaminants.

### Plastic Netting

#### Challenges:

Clean cut without damaging contents. Straight, single cut to prevent loose shreds of net as a potential contaminant.

### Plastic Strapping

#### Challenges:

Efficient strap cutting to achieve single cut and avoid loose shards of plastic strap as a potential contaminant.

### Plastic Film

#### Challenges:

Depth of cut without damaging contents. Beware of loose film.

### Engineering Plastics

#### Challenges:

Cut resistant materials require heavy duty blades and construction.

# Detectable Auto-Retract Safety Knife

**Cuts  
packaging  
and wraps**

- ▶ Non-replaceable blade sealed in handle for added safety
- ▶ Automatic blade retraction
- ▶ Simple to use & lightweight
- ▶ Fully metal detectable
- ▶ Approved for safe contact with food

*Suitable for the left or right hand*

CODE	DESCRIPTION	PACK QTY
615-K104-T184-P01	SK104 Auto-Retract Safety Knife - Blue	5

# Food Safe Metal Detectable Swan Bag Cutter

- ▶ Suitable for cutting bags, bubble wrap, strapping, tape and paper.
- ▶ Made from metal detectable plastic with a stainless steel blade.
- ▶ The patented ergonomic design reduces friction which enables a smooth and more effective cut.

*Suitable for the left or right hand*

CODE	DESCRIPTION	PACK QTY
615-K116-T035-P01	SK116 Swan Bag Cutter - Blue	5

## Detectable Plastic Sheet Cutter

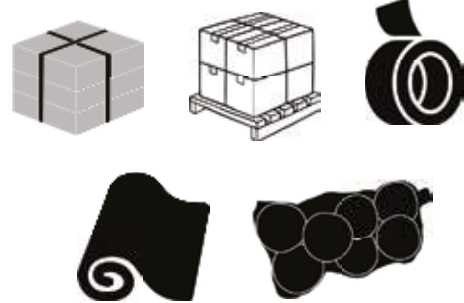

This plastic sheet cutter offers 2 advantages. A highly simplified blade change routine plus the integrated metal slitter (removable) to cut cardboard box adhesive tapes. For trouble free work with thick plastic sheeting , leather, plastic box strapping.

- Fully Metal Detectable
- Plastic Sheet Cutter (also leather, plastic box strapping)
- Replaceable Blades
- Integrated metal slitter tool to open the blade cover
- The SK100 has a special tool to open the blade cover "preventing unauthorized access to the blade"
- Tested for Safety.

CODE	DESCRIPTION	PACK QTY
615-K100-T191-P01	SK100 Sheet Cutter Knife With Security Key	1
615-K101-T184-P01	SK101 Sheet Cutter Knife	1
618-P44-K003-T071	Stainless Steel Replacement Blade - Suits SK100	10
618-P44-K003-T072	Stainless Steel Replacement Blade - Suits SK101	10
618-P32-K004-T072	Stainless Steel Replacement Tape Scratcher Blade - Suits SK101	10

Color

## Detectable Retractable Replaceable Blade Safety Knife

The spring loaded blade retract system is designed to respond to any uncontrolled move if and when the thumb - push slider is NOT in forward position- let go of the slider when making the cut! Easy blade change and no extra tools required - just slide the blade mount insert back.

- Fully Metal Detectable
- Replaceable Blades
- Aluminum Body
- Spring loaded blade retract
- Tested for Safety

CODE	DESCRIPTION	PACK QTY
615-K102-T038-P30	SK102 Retractable Reusable Knife	1
618-P32-K005-T073	Stainless Steel Replacement Blade	10

Color

## Detectable Disposable Retractable Blade Safety Knife

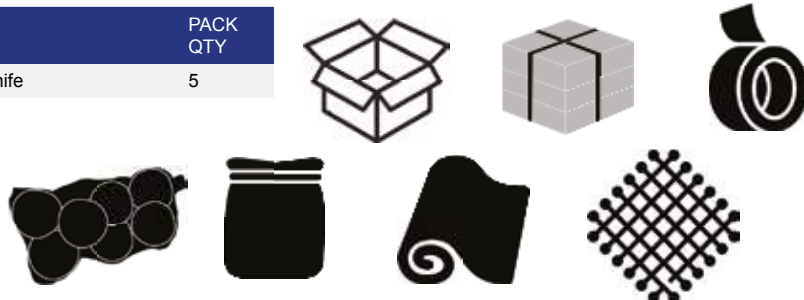

The disposable SK104 is designed to cut packaging and wraps, this is a disposable knife and must be replaced when showing any signs of wear and tear. The non replaceable blade is in a sealed handle for extra safety ( no risk of loss from internal parts). This knife is a very simple and popular lightweight knife. This knife can be safely pocketed and can be used by both right and left handers.

- Fully metal detectable
- Automatic blade retract for safety
- Tested for safety

CODE	DESCRIPTION	PACK QTY
615-K104-T184-P01	SK104 Retractable Disposable Knife	5

## Detectable Packaging Cutter

A disposable metal detectable knife. Made for light use. Reduce the risk of accidents through blade changing by using this fixed blade Safety Knife. Eliminate danger from loose blades accidentally falling into merchandise.

- Fully metal detectable body
- Stainless steel blade
- Pointed nose for piercing
- Hygienic and disposable molded-in, Carbon Steel Blades
- Shielded Blades
- No Removable Parts
- Impact resistant Metal Detectable polypropylene casing for durability.

CODE	DESCRIPTION	PACK QTY
615-K106-T030-P01	SK106 Knife - Blue	5
615-K106-T030-P03	SK106 Knife - Red	5

615-K106-T030-P05	SK106 Knife - Yellow	5

## Detectable Heavy Duty Packaging Cutter

A disposable metal detectable knife. Made for heavy duty use. Reduce the risk of accidents through blade changing by using this fixed blade Safety Knife. Eliminate danger from loose blades accidentally falling into merchandise.

- Fully metal detectable body
- Stainless steel blade
- Pointed nose for piercing
- Hygienic and disposable molded-in, Carbon Steel Blades
- Shielded Blades
- No Removable Parts
- Impact resistant Metal Detectable polypropylene casing for durability.

CODE	DESCRIPTION	PACK QTY
615-K107-T031-P01	SK107 Heavy Duty Knife - Blue	5
615-K107-T031-P03	SK107 Heavy Duty Knife - Red	5
615-K107-T031-P04	SK107 Heavy Duty Knife - Green	5
615-K107-T031-P05	SK107 Heavy Duty Knife - Yellow	5

## Detectable Multipurpose Safety Knife

A disposable, metal detectable knife for light use. Fixed blade Safety Knife. Eliminate danger from loose blades accidentally falling into merchandise.

- Completely sealed against bacteria
- Hygienic, molded in shielded stainless steel blades
- Pointed nose for piercing
- No removable parts
- Molded-in, Carbon Steel Blades
- Shielded Blades
- Impact resistant metal detectable polypropylene casing for durability

CODE	DESCRIPTION	PACK QTY
615-K108-T192-P01	SK108 Without Hook - Blue	5

## Detectable Safety Knife with Hook Blade

The SK109 has a unique patented valley, which guides the material to be cut directly along the surgical steel blade. As the valley deepens, the pressure is increased onto the blade, the cutting action is more effective, thus taking the strain off the operator and increasing overall efficiency.

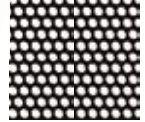

The patented valley is totally unique in the field of Safety Knives.

- Fully metal detectable.
- Hook and Blade punctures & box prevents damage to goods inside.
- Unique Vari Guard. Automatic spring loaded finger guards.

CODE	DESCRIPTION	PACK QTY
615-K109-T195-P01	SK109 With Hook - Blue	5
615-K109-T192-P01	SK109 Without Hook - Blue	5
618-P32-K001-T075	Stainless Steel Replacement Hook Blade	10
618-P32-K002-T075	Stainless Steel Replacement Straight Blade	10

## Detectable Box Cutter

A revolutionary and unique break through in the field of Safety Knives. It is directly targeted at the most common uses for knives - Cardboard Boxes.

- Unique -Vari-Guard: Automatic Spring-Loaded Finger Guards, protect & retract when cutting
- Thumb grip for superior control
- Internal storage for new & used blades
- Blade will not break out of casing under stress
- Hook Blade punctures the box & prevents damage to goods inside.
- Straight Blade cuts conventionally with a 45 degree angle.
- Only blunt edges of Hook Blade exposed. Protects fingers from sharp blade.
- Grip when wet
- No Screws - Fast blade change

CODE	DESCRIPTION	PACK QTY
615-K111-T033-P01	SK111 Box Cutter - Blue	1
618-P40-K001-T076	Carbon Replacement Hook Blade	10

## Detectable Dual-Blade Crab Knife

The "Crab" Knife is designed with angled blade entries to allow the knife to be used with a pushing or a pulling motion. The SK115 is equipped with strong stainless steel blades molded in detectable plastic giving it a tough, robust construction. No removable parts allow it to be disposable and dual blades extend the knife's life. Also designed with a Lanyard attachment point.

Available in 4 detectable colors: Blue, Red, Green & Yellow

CODE	DESCRIPTION	PACK QTY
615-K115-T132-P01	SK115 Detectable Crab Knife - Blue	5
615-K115-T132-P03	SK115 Detectable Crab Knife - Red	5
615-K115-T132-P04	SK115 Detectable Crab Knife - Green	5
615-K115-T132-P05	SK115 Detectable Crab Knife - Yellow	5

## Detectable Swan Bag Cutter

The "Swan Bag Cutter" Safety Knife is specifically designed to cut multi-layer paper or plastic bags and sacks.

Molded In Metal Detectable Plastic and with a Stainless Steel Blade

The patented opposed slopes at the back of the blade reduces friction resistance which enables a smooth and more effective cut. The all around hand coverage keeps users safe while enabling more efficient cutting

CODE	DESCRIPTION	PACK QTY
615-K116-T035-P01	SK116 Swan Bag Cutter - Blue	5

## Detectable Safety Knife with Retractable Hook Blade

The SK117 is the latest addition to our Safety Knife range.

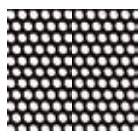

Molded in Metal Detectable Plastic with Stainless Steel Blades.

- Patented 'opposed exits' at the back of the blade
- Spring loaded auto retractable hook blade
- Disposable
- Suitable for cutting strapping, paper, stretch and bubble wrap, tape, boxes and a variety of other packaging materials.

CODE	DESCRIPTION	PACK QTY
615-K117-T196-P01	SK117 Spring Loaded Hook Knife - Blue	5

Color

## Detectable Heavy Duty Safety Knife

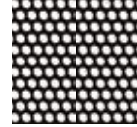

Larger more robust heavy duty version of SK 109.

- Replaceable blades
- 9mm (0.35") mouth opening
- Tamper proof option
- Optional retracting hook
- Fast blade change and easy to clean
- Suitable for cable/zip ties, rope, string and netting

CODE	DESCRIPTION	PACK QTY
615-K118-T197-P01	SK118 Heavy Duty Cutter - Retracting Hook	1
615-K118-T192-P01	SK118 Heavy Duty Cutter - Without Hook	1

Color

## Detectable Safety Knife with Retractable Blade

Take safety to another level with this Safety Knife. The blade locks in the 'out' position whilst a controlled cut is being made, however if the knife is jerked, shaken or dropped, the blade will retract.

- Molded in tough glass-filled nylon
- Stainless Steel blades
- Reversible and replaceable blades
- Metal Detectable Security Key allows for safe blade storage and easy blade change
- Simple cleaning procedure
- SK119 equipped with metal detectable plastic blade carrier
- SK120 equipped with Aluminum blade carrier for more heavy duty use.

CODE	DESCRIPTION	PACK QTY
615R-K119-T037-A117	SK119 Safety Knife with Detectable Plastic Blade Carrier - Blue	1
615R-K120-T037-A118	SK120 Safety Knife with Heavy Duty Aluminum Blade Carrier - Blue	1

## Detectable Safety Knife Ring

The NEW Detectable Safety Knife, SK 123, is worn on the top side of your finger without restriction allowing both hands free and only weighing 3.5 grams (0.1 oz) The SK123 has a 6mm (0.24") cutting depth and can be used on materials such as Pallet wrapping, tape and cord.

- Fully Metal Detectable
- Ambidexterity safety knife
- One Size Fits All
- Tested for Safety.

Dimensions : 34.3mm x 23.2mm x 18.4mm (1.35" x 0.91" x 0.73")

CODE	DESCRIPTION	PACK QTY
615-K123-T184-P01	SK123 Safety Knife Ring - Blue	1

## Detectable Heavy Duty Pocket Knife

The Detectamet Heavy Duty Locking Blade Pocket Knife has been designed to assist people in the Food and related industries to help them complete their work to the highest standard.

This heavy duty action knife has a strong and durable handle made from metal detectable plastic and in blue color for high visibility.

CODE	DESCRIPTION	PACK QTY
605-T042-P01	Detectable Heavy Duty Pocket Knife - Lambsfoot Blade	1
605-T043-P01	Detectable Heavy Duty Pocket Knife - Sheepfoot Blade	1

## Security Cages

**Safely store and keep track of sensitive equipment with Detectamet's Bespoke Security Cages.**

Security is often of paramount importance for sensitive equipment, particularly knives and we offer Stainless Steel cages with mesh doors utilizing combination (or key) padlocks for safe controls, which still provide adequate visibility.

Can be fitted with magnetic knife bars and stainless steel hanging posts to house a variety of knives and scrapers in a highly visual yet secure manner.

Please contact our Sales Office on Tel +1 (804) 303-1983 or email [sales@us.detectamet.com](mailto:sales@us.detectamet.com) for more information.

## Shadow Boards

**Enhance any hygiene system while keep tools off the floor with Detectamet's Bespoke Shadow Boards.**

Shadow boards are widely used across most food factories for correctly storing a wide variety of equipment. A shadowboard is a significant tool for operational efficiency and provides the opportunity to have equipment where it is needed with rapid visual assessment, coupled with traceability controls. Perfect in conjunction with initiatives such as 5S & Six Sigma.

Virtually any tool can be accommodated on a shadow board with integrated stainless steel fixings and purpose made holders offering the opportunity to ensure relevant equipment is always at hand and traceable in conjunction with internal systems that often include the necessity to mark the boards with indicators for cross referencing.

Please contact us with your requirements.

# Professional Knives

Detectamet can offer you an extensive range of Professional Knives and Accessories for use in the Catering, Food Processing and general industries worldwide. Our blades are guaranteed against defective materials and workmanship and are designed to offer long and reliable service to all professional users.

## Hygiene / Handles & Blades

Our blades are made in the UK from fully hardened and tempered stainless steel and are easy to clean. Knives only require to be steered occasionally in the normal way to retain a perfect cutting edge.

Our detectable handles are insert molded from polypropylene copolymer to withstand rigorous sterilizing and dishwasher use and do not present the potential health hazards that are frequently associated with other knives.

Tested to assess compliance with the current EU food legislation (EN) 1935/2004 on materials and articles intended to come into contact with food and repealing directives. All products come with a certificate of conformity. Migration test reports available on request.

**The Regular Handle** - standard, polypropylene metal detectable handle, originally designed for holding the knife safely and comfortably for long periods.

**The Ergo handle** - polypropylene metal detectable handle, developed for the professional user who uses knives all day, our research and development team worked with various food processing companies to develop this innovative handle, the resulting design provides the following benefits-

- Double tapered design, ergonomically designed to reduce stress to hand and wrist
- Contoured thumb platform and rounded blade back for added comfort

We recommend that a coding system is used for all Professional Knives in the range to prevent cross-contamination, tainting of food and to separate production lines in the food industry.

### HANDLE COLOR CODING

RED	Raw Meat
BLUE	Raw Fish
YELLOW	Cooked Meat
GREEN	Salad
ORANGE	Fruit
BLACK	Vegetables
WHITE	Dairy Products
PURPLE	Free Choice

## ***Cook's Knife***

Multi-purpose knife designed to perform well at many differing kitchen tasks.

## ***Curved Boning Knife***

The boning knife is an ideal kitchen knife for removing meat from bones. Use a curved boning knife for a better working angle when cutting close to and around the bone.

## ***Palette Knife***

A palette knife is designed for spreading a substance onto a flat surface, such as icing on a cake. It is also an ideal tool for applying spreads onto sandwiches in mass quantities.

## ***Vegetable Knife***

Designed specifically to slice, chop and trim fresh produce.

## ***Butcher's Knife***

Designed and used primarily for the butchering and/or dressing of animal carcasses. The heftier blade works well for splitting, stripping and cutting meat.

Our wide range of Professional Knives are available in a variety of handle colors & blade lengths, please contact us with your requirements.

Now available  
with safety blades.

**NEW  
PRODUCT**

## Detectable Palette Knives

Palette Knives which are manufactured in the traditional way come with fully detectable handles.

The test when choosing a Palette Knife is to press the blade onto a firm surface. It should bend from the middle of the blade, not near the handle. Keep pushing the blade so it is at 90 degrees to the handle. A Palette knife in the Detectamet range has the flexibility to allow it to return to a dead straight "rest" position time and time again.

Available in a variety of colors and blade lengths, please contact us with your requirements.

64	Earplug Dispenser Box
64	Fully Detectable Sleeve Covers
64	Fully Detectable Shoe Covers
64	Detectable Disposable Polythene Aprons
65	Disinfectant & Probe Wipes including Dispensers
65	Paper Towel Dispenser

Detectanet products, equipment and materials are suitable for packaging and food contact. Our products meet the requirements of the Acts, regulations and orders applicable in Europe and the United Kingdom relating to goods supplied including, but not necessarily limited to, the following:

- **1935/2004 - Materials and Articles Intended to Come into Contact with Food**, and all subsequent amendments (and their transposition into National Law).
- **2023/2006 - Good Manufacturing Practice for Materials and Articles Intended to Contact with Food**, and all subsequent amendments (and their transposition into National Law).

Overall Migration Limits are available for the majority of our products.

# Detectable Disposable Powder Free Vinyl Gloves

The patent protected range of gloves from Detectamet includes a detectable vinyl product designed for use in a general food handling situation and the material has been approved for food contact according to EU and USA regulations.

**Available  
in 4 sizes  
S, M, L & XL**

## Detectable Food Safe Nitrile Gloves

Suitable for indoor and outdoor work or anywhere mechanical power is needed. Our patented design allows water, oil and grease to glide off the glove while a texturized surface helps to grip both wet and dry pieces. Cotton lined for comfort and reinforced for durability as well as tested and certified for use with acidic and fatty foods.

**Seamless Cuff Design**

**Available in two styles -**

**The Seamless Cuff:** Fully coated and available in 3 lengths and fantastic for work that requires part or all of the arm

**The Woven Cuff:** Can be fully or partially coated. Heat proof and specially coated for flexibility, resistance to friction, tearing and cutting.

**Woven Cuff Design**

**See Page 61 for  
Product Codes**

## Detectanet™ Detectable Mobcaps

We offer 2 styles of Mobcap. Our Standard Mobcap and our Premium Mobcap. Standard Mobcap - being detectable at 34645 and a light shade of blue, offering good protection and to meet budget requirements without compromising on quality.

Premium Mobcap - being more detectable at 40505 and extremely robust, ideal for those factories that are producing food products which make detection difficult due to the line settings and the packaging requirements, this Mobcap is ideal for the customer who wants a thicker hair covering for employees with long hair etc.

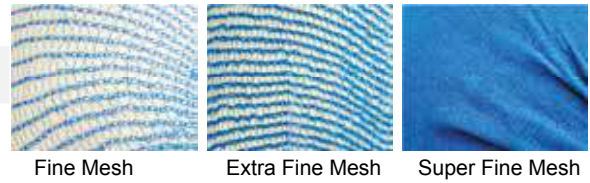

CODE	DESCRIPTION	PACK QTY
446-T009-P01-X32	Standard Mob Caps - Colors Available: Blue, Red, White	1000
446-T010-P01-X32	Premium Mob Caps - Available in all colors	1000

## Detectanet™ Detectable Hairnets

Detectanet's NEW range of Detectable Hairnets incorporate a unique 'Fold and Hold' technology which helps to contain hair, especially important for short hair. The patent pending technology allows the hairnet to expand and contract to hold both short and long hair and is excellent for encasing long hair.

CODE	DESCRIPTION	PACK QTY
440-T001-P01-X11	Fine Mesh - Available in Blue	100
440-T021-P01-X11	Extra Fine Mesh - Available in Blue	100
440-T022-P01-X06	Super Fine Mesh - Available in Blue	25
440-T023-P01-X11	Close Mesh 5mm (0.20") Available in Blue, Red, Green, Brown & White	100
440-T024-P01-X11	Course Mesh 10mm (0.39") Available in Blue, Brown & White	100
440-T025-P01-X11	Extra Close Mesh 3mm (0.12") Available in Blue & White	100

## Detectanet™ Detectable Hairnet with Neck Guard Protection

Detectanet's Detectable Hairnet with Neck Guard Protection incorporates a unique 'Fold and Hold' technology which helps to contain hair. The patent pending technology allows the hairnet to expand and contract to hold both short and long hair.

This provides the perfect and economic solution to food from contamination by stray hair and the organisms that it carries. Detectanet Hairnets should fully cover the wearer's entire hairline and be worn below the ears.

CODE	DESCRIPTION	PACK QTY
40G-T012-P01-X11	Detectable Hairnet with Neck Guard	100

## Detectanet™ Detectable Balaclava Hoods

Our lightweight breathable balaclava hoods are made in an airy polyester non-woven fabric.

Detectanet's Detectable Balaclava Hood is extremely robust, ideal for those factories that are producing food products and also for the customer who wants a thicker hair covering for employees with long hair.

CODE	DESCRIPTION	PACK QTY
441-T009-P01	Detectable Disposable Balaclava Hoods - Blue	100
441-T009-P06	Detectable Disposable Balaclava Hoods - White	100
441-T009-P03	Detectable Disposable Balaclava Hoods - Red	100
441-T020-P06	Detectable Reusable Balaclava Hoods - White	10

## Detectanet™ Detectable Bun Nets and Hair Ties

Detectanet™ Bun Nets enclose all hair and provide an additional layer to help prevent hairs protruding through outer coverings due to the abrasion when fidgeting with headwear.

The Detectanet™ Hair Ties are ideal to secure long hair effectively under the Bun Net, ensuring maximum detectability.

CODE	DESCRIPTION	PACK QTY
447-P01-X09	Detectable Bun Nets	20
465-P01-X06	Detectable Hair Tie	25

**NEW  
PRODUCT**

## Detectanet™ Detectable Head Band

Detectanet's Detectable Head Band helps enclose all long hair and provides an additional layer to help prevent hairs protruding through outer coverings due to the abrasion when fidgeting with headwear.

- Mesh used is Flame retardant to BSEN ISO 1021 - 1:2006
- Contains Prolene: moisture wicking properties for optimum wearer comfort and temperature regulation
- Tested for harmful substances in accordance with Oeko - Tex Standard 100.

CODE	DESCRIPTION	PACK QTY
442B-P01	Detectable Head Band	25

## Detectanet™ Detectable Mesh Beard Snoods

Detectanet offers a wide range of metal detectable beard snoods. Our Woven Beard Snoods are ever popular giving far greater airflow and incorporate a unique patent pending 'Fold and Hold' technology which allows the snood to expand and contract to hold both short and long hair and has been proven to contain hair TWO times better than a traditional beard snood. Available in 2 mesh sizes with metal clip to give greater detectability.

CODE	DESCRIPTION	PACK QTY
445-T002-P01-X06	Fine Mesh (5mm / 0.20") - Blue	25
445-T011-P01-X06	Extra Fine Mesh (3mm / 0.12") - Blue	25

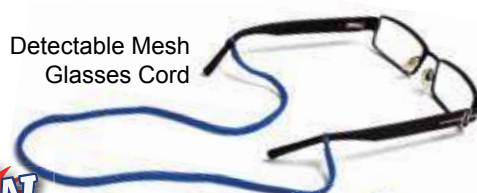

## Detectanet™ Detectable Non-Woven Beard Snoods

Detectanet offers a wide range of metal detectable beard snoods. Our Non-Woven Beard Snoods offer complete cover for larger and longer beards. Available in 3 colors with aluminum foil strip for detectability.

CODE	DESCRIPTION	CASE QTY
445-T013-P01-X33	Non-Woven Beard Snood - Blue	500
445-T013-P03-X33	Non-Woven Beard Snood - Red	500
445-T013-P06-X33	Non-Woven Beard Snood - White	500

Detectable Mesh Glasses Cord

Detectable Silicone Glasses Cord

**NEW  
PRODUCT**

## Detectable Glasses Cord

Metal Detectable and in high visibility blue color to comply with your due diligence. Lightweight and comfortable cord to ensure your glasses are held safely around your neck.

Available in blue mesh or fully detectable silicone.

CODE	DESCRIPTION	PACK QTY
466-P01-X06	Detectable Mesh Glasses Cord	25
446-P75-X06	Detectable Silicone Glasses Cord	25

## Detectable Disposable FFP2 & FFP3 Dust Masks

Our most popular disposable FFP masks incorporate various designs and protection factors. Comfortable effective respiratory protection against harmful and carcinogenic dusts, fumes and aerosols based on water and oil and are designed for the food industry with blue visual and detectable plastic parts.

Standards:

- EN149:2001+A1:2009 (Europe)
- NIOSH N99 (USA)
- AS/NZS1716:2012 P2 (Australia/New Zealand)

Fit testing kit available on page 77.

CODE	DESCRIPTION	PACK QTY
460-T026-A65	FFP2 NR Valved Fold Flat Blue Detectable Mask	10
460-T027-A65	FFP3 NR Valved Blue Detectable Mask	5
460-T027-A66	FFP3 NR Valved Standard Non-Detectable Mask	5

460-T027-A66  
Detectable FFP3

Fold Flat FFP2

## Detectable Food Safe Seamless Cuff Nitrile Gloves

An ideal glove which can be used in both indoor and outdoor areas. It provides mechanical power while performing work. Oil and water easily glides down the surface of the glove and also its textured surface enables wearers to clutch the smooth surfaces firmly. Cotton lined, it can be manufactured in lengths requested up to the wrist, elbow or shoulder. Durable against oil, grease and various chemicals. Suitable for work that requires protection up to the elbow or all of the arm, dye industry and sanding machine.

Conforms to standards EN 1935/2004 & EN 388 (2111).  
Sizes available - 8, 9 & 10.

Lengths available - 270mm (10.63"), 400mm (15.75") & 600mm (23.62").

CODE	DESCRIPTION	PACK QTY
455-A100-T017	Reinforced & Seamless Cuff, 270mm (10.63") Length	1 Pair
455-A159-T017	Reinforced & Seamless Cuff, 400mm (15.75") Length	1 Pair
455-A160-T017	Reinforced & Seamless Cuff, 600mm (23.62") Length	1 Pair

## Detectable Food Safe Woven Cuff Nitrile Gloves

A heat proof detectable nitrile coated glove providing flexibility. Mechanical resistant and oil proof. Resistant to friction, tearing and cutting. Has superior piece clutching aspect both wet and dry pieces. Suitable for general protection, assembly, transportation, agricultural work and others. 100% cotton interlock lining.

Conforms to standards EN 1935/2004 & EN 388 (3121).

Sizes available - 7, 8, 9, 10 & 11. Length - 160mm (6.3").

CODE	DESCRIPTION	PACK QTY
455-A101-T18	Woven Cuffed, Upper Hand Partially Coated	1 Pair
455-A101-T17	Woven Cuffed, Upper Hand Fully Coated	1 Pair

## Detectable Food Handling Vinyl Glove

In a world where hygiene and safety to avoid food contamination from bacteria such as E-coli are top priorities, food manufacturers can provide their employees with a glove that can also offer protection against foreign body contamination.

The Detecta-Glove is a Powder Free Vinyl Food Service Glove and meet FFDC(21CFR) requirements for food contact. Available in sizes Small, Medium, Large and Extra Large. Packaged 100 gloves per box in a case of 10 boxes.

CODE	DESCRIPTION	PACK QTY
450-A65-S092-X31	Vinyl Gloves - Extra Large	10 x boxes of 100
450-A65-S091-X31	Vinyl Gloves - Large	10 x boxes of 100
450-A65-S090-X31	Vinyl Gloves - Medium	10 x boxes of 100
450-A65-S089-X31	Vinyl Gloves - Small	10 x boxes of 100

**NEW  
PRODUCT**

## 'DUC' Detectable Utility Clip

Keeps gloves, keys and swipe cards easily accessible close to hand.

- The versatile dual clip version can be used as one unit or detached, clipped to D-rings and used as two separate pieces.
- The belt clip version keeps items closer by conveniently threading over a belt or pocket.

CODE	DESCRIPTION	PACK QTY
469-A95	Detectable Utility Clip - Dual Clip	10
469-A96	Detectable Utility Clip - with Belt Clip	10

## Detectable Glove Dispensers

Wall-mounted or hanging dispenser to accommodate standard size boxes of 100 disposable gloves, keeping an area tidy whilst providing easy access to gloves. Manufactured to accommodate 1, 2, 3 or 4 boxes of disposable gloves and is available in the full range of 9 hygiene colors: Blue, Black, Red, Green, Yellow, White, Purple, Orange and Pink.

Also available as an enclosed unit or with an integrated hanging hook.

CODE	DESCRIPTION	PACK QTY
451-A151-P01	Detectable Glove Dispenser - 1 Box Capacity - Blue	1
451-A152-P01	Detectable Glove Dispenser - 2 Box Capacity - Blue	1
451-A153-P01	Detectable Glove Dispenser - 3 Box Capacity - Blue	1
451-A154-P01	Detectable Glove Dispenser - 4 Box Capacity - Blue	1
451-A155-P01	Detectable Glove Dispenser - Integrated Hanging Hook - Blue	1
451-A156-P01	Detectable Glove Dispenser - Enclosed - Blue	1

## Stainless Steel Glove Dispensers

Detectamet's Stainless Steel Glove Dispensers help food processing management teams combat waste and contamination by providing storage and dispensing systems that are easy to find with straight forward access. Made from high quality stainless steel they are supplied in four sizes to hold up to four boxes of 100 gloves. Also available as an enclosed unit or with a round or square hanging hook.

CODE	DESCRIPTION	PACK QTY
454-A151-A157	Stainless Steel Glove Dispenser - 1 Box Capacity	1
454-A152-A146	Stainless Steel Glove Dispenser - 2 Box Capacity	1
454-A153-A146	Stainless Steel Glove Dispenser - 3 Box Capacity	1
454-A154-A157	Stainless Steel Glove Dispenser - 4 Box Capacity	1
454-A39-A17	Stainless Steel Glove Dispenser with Rolled Hanging Hook	1
454-A146-A17	Stainless Steel Glove Dispenser with Square Hanging Hook	1
454-A151-A156	Stainless Steel Glove Dispenser - Enclosed	1

## Multi-Purpose Stainless Steel PPE Dispenser

Multi-purpose stainless steel dispenser for the distribution of PPE items that can be free standing on a stainless steel stand. The stainless steel construction permits easy and efficient cleaning, and a vertical slot in the front face lets supervisors see when the dispenser needs refilling. Suitable for a wide range of PPE equipment including:

- Mobcaps (Approximate capacity 200)
- Hair Nets (700)
- Beard Snoods (600)
- Ear Plugs (600 pairs)
- Overshoes (600)
- Oversleeves (200).

CODE	DESCRIPTION	PACK QTY
453-P45-A26	Stainless Steel Dispenser - with Stand	1
453-P45-A25	Stainless Steel Dispenser - Wall Mountable	1
453-P45-A27	Stainless Steel Dispenser - with Mobile Stand	1

## Detectable Color Coded 'Clean Ear' Hygienic Ear Plug System

*(Developed to minimize the risk of infection through cross contamination)*

The New 'Clean Ear' System has the unique benefit of different colored reusable ear plugs i.e. Red = Left Ear & Blue = Right Ear on either end of a cord or Expandaband (adjustable head band).

**The cord, box & flanges are detectable.**

The new system also includes a unique Hygienic Storage box, the 'Clean Ear' storage box has been specifically designed to enhance reusable ear plug hygiene and safety. This box has clearly marked individual storage compartments for Left or Right plug, drain holes to allow air to pass through to assist in drying the plugs after washing/cleaning etc.

Meeting the requirements of EN352-2 and are CE-Marked in accordance with the requirements of European Directive 89/686/EEC.

SNR Rating: 24dB

CODE	DESCRIPTION	PACK QTY
410-P21-S101-X18	Blue Cord, 2 Flanges	200
410-P23-S101-X18	Red Cord, 2 Flanges	200

## Fully Detectable Band & Plugs Expandaband

This unique product has been designed to ensure maximum comfort while **both the band and flanges are fully detectable**. The adjustable detectable pressure band allows the wearer to adjust the pressure exerted into the ear canal to suit their own comfort factor. The Expandaband allows earplugs to be clear of work surfaces to avoid cross-contamination.

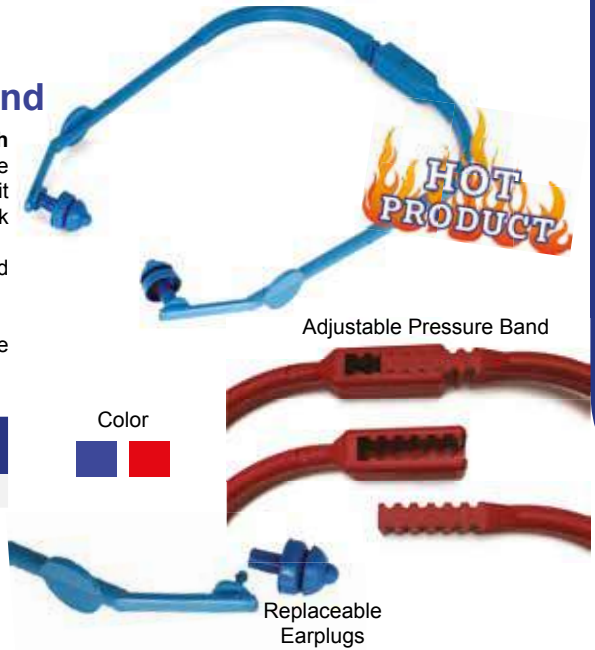

Equipped with replaceable sonar detectable earplugs (SNR24) 2 flange patented design.

Can be worn under the chin or behind the head.

Meeting the requirements of EN352-2 and are CE-Marked in accordance with the requirements of European Directive 89/686/EEC.

Colors available - Blue & Red

CODE	DESCRIPTION	PACK QTY
413-S101-X07	Expandaband - 2 Flanges	30
413-S402-X18	Expandaband - Replacement Ear Plugs 2 Flanges	200

Replaceable Earplugs

## Fully Detectable Cords & Plugs Reusable Sonar Earplugs

*(Available Corded or Uncorded)*

Designed for maximum comfort and performance while both the flanges and cord are fully detectable. **Made from medical grade detectable silicone rubber**, these plugs are the ultimate choice for the discerning user.

The two flange patented design (SNR24) Patented product No. 69820878.

One and three flange (SNR24) exerts only sufficient pressure within the ear canal to ensure the required acoustic seal.

Meeting the requirements of EN352-2 and are CE-Marked in accordance with the requirements of European Directive 89/686/EEC.

Available in blue or red.

**100% Detectable - both ear plug and cord.**

CODE	DESCRIPTION	PACK QTY
410-P20-S101-X18	Fully Detectable Cord & Plug - Blue 2 Flanges	200

## Fully Detectable Cord & Plugs Disposable Earplugs

Color

The fully detectable disposable earplugs come complete with a metal insert inside the foam plug and is available with or without a fully detectable cord. Meeting the requirements of EN352-2 and are CE-Marked in accordance with the requirements of European Directive 89/686/EEC. SNR 36dB

CODE	DESCRIPTION	PACK QTY
412-P05-A150-X29	Fully Detectable Disposable Earplugs with Cord - Yellow	250
412-P01-A150-X29	Fully Detectable Disposable Earplugs with Cord - Blue	250
412-P01-A149-X29	Fully Detectable Disposable Earplugs without Cord - Blue	250

## Detectable Earplug Storage Box

This unique Hygienic 'Clean Ear' storage box has been specifically designed to enhance reusable ear plug hygiene and safety. This box has clearly marked individual storage compartments for Left or Right plug, drain holes to allow air to pass through to assist in drying the plugs after washing/cleaning etc.

CODE	DESCRIPTION	PACK QTY
416-A65-S159-P01	Detectable Earplug Storage Box - Blue	25
416-A65-S159-P03	Detectable Earplug Storage Box - Red	25

## Earplug Dispenser Box

Blank Earplug Dispenser Box supplied in a pack of 10. Capacity holds up to 250 sets of Detectamet's corded earplugs.

Detectamet can 'own brand' / laser mark each box (please enquire for details)

CODE	DESCRIPTION	PACK QTY
414-S155-P06	Earplug Dispenser Box (Capacity 250 Pairs)	10

## Fully Detectable Sleeve Covers

The new disposable sleeve protector is fully detectable because it is made from Detectamet's unique metal and X-ray detectable polymer. The new hard wearing polymer completely protects the food worker with an elasticated cuff and upper arm. The blue sleeve covers measure 19cm x 38cm (7.48" x 14.96") long and are supplied in packs of 1000. These sleeve covers have been approved for safe contact with food under the relevant EU and US FDA requirements.

CODE	DESCRIPTION	PACK QTY
438-P01-X32	Fully Detectable Sleeve Covers - Blue	1000

## Fully Detectable Shoe Covers

Trials have shown that Detectamet's new disposable shoe cover material is more resilient than other plastics. By using Detectamet's unique metal and X-ray detectable polymer the whole covers are fully detectable. The blue shoe covers measure 14cm x 40cm (5.51" x 15.75") and are in boxes of 1000 (500 pairs) and like all Detectamet products they are supplied within Detectamet's ISO 9001:2000 accredited quality management system.

CODE	DESCRIPTION	PACK QTY
439-P01-X32	Fully Detectable Shoe Covers - Blue	1000

## Detectable Disposable Polythene Aprons

Supplied on a roll.

- Size 70cm x 1250cm (2' 3.6" x 13.67 yards)
- 100 Aprons per roll
- 10 rolls per case
- Available in blue or red.

CODE	DESCRIPTION	PACK QTY
449-P01-S219-X16	Detectable Disposable Polythene Aprons - On a Roll	100

## Disinfectant and Probe Wipes & Dispensers

These wipes use an alcohol free advanced hard surface/multi surface cleaner and sanitizer that is one of today's fastest acting and most powerful germ killing products. Within 30 seconds it can kill 99.9% of bacteria yet contains no skin irritants within its formulation. Both Detectamet's Multi-Surface Anti-Bacterial Wipes and Probe Wipes are supplied in a re-sealable container of 200 individual wipes with either a standard lid or metal detectable lid.

Refill packs containing 200 wipes are available and a wall mounted storage station/dispensers can be ordered to help you keep work areas tidy and ensure that wipes are always close at hand when needed.

CODE	DESCRIPTION	PACK QTY
432-T280-P01-X35	200 x 200mm (7.9" x 7.9") Disinfectant Wipes Fully Detectable Container	Tub of 200
432-T283-P01-X35	130 x 130mm (5.1" x 5.1") Probe Wipes Fully Detectable Container	Tub of 200
430-T212-X35-A89	200 x 200mm (7.9" x 7.9") Disinfectant Wipes - Refill	200
430-T213-X35-A89	130mm x 130mm (5.1" x 5.1") Probe Wipes - Refill	200
431-A25-X37-P01	Detectable Wall Mounted Dispenser - Single Tub of Probe Wipes	1
431-A25-X36-P01	Detectable Wall Mounted Dispenser - Single Tub of Disinfectant Wipes	1
431-A25-X38-P01	Detectable Wall Mounted Dispenser - 1x Tub of Probe & 1x Tub of Disinfectant Wipes	1

## Stainless Steel Wipe Dispensers

The Wipe Dispenser Holders are designed to hold one or two tubs of wipes and can be mounted on a handy wall. These will help to keep the work areas free of clutter and further reduce the risk of mislaying the tubs and the possibility of contamination.

CODE	DESCRIPTION	PACK QTY
431-A25-X37-P45	Stainless Steel Wall Mounted Dispenser - Single Tub of Probe wipes	1
431-A25-X36-P45	Stainless Steel Wall Mounted Dispenser - Single Tub of Disinfectant wipes	1
431-A25-X38-P45	Stainless Steel Wall Mounted Dispenser - 1x Tub of Probe & 1x Tub of Disinfectant wipes	1

See Page 96 for more information

## Detectable Paper Towel Dispenser

This product is the ideal solution for storing paper towels whilst also being able to have them conveniently to hand. Supplied with keyhole points to enable wall fitting, these low weight but tough products are ideal for all production areas because they are easy to clean with drainage slots in the base units.

- Available in Detectamet's full range of 9 colors or heavy duty stainless steel.
- Will accept USA standard paper towels (235mm x 83mm or 9.25" x 3.27")

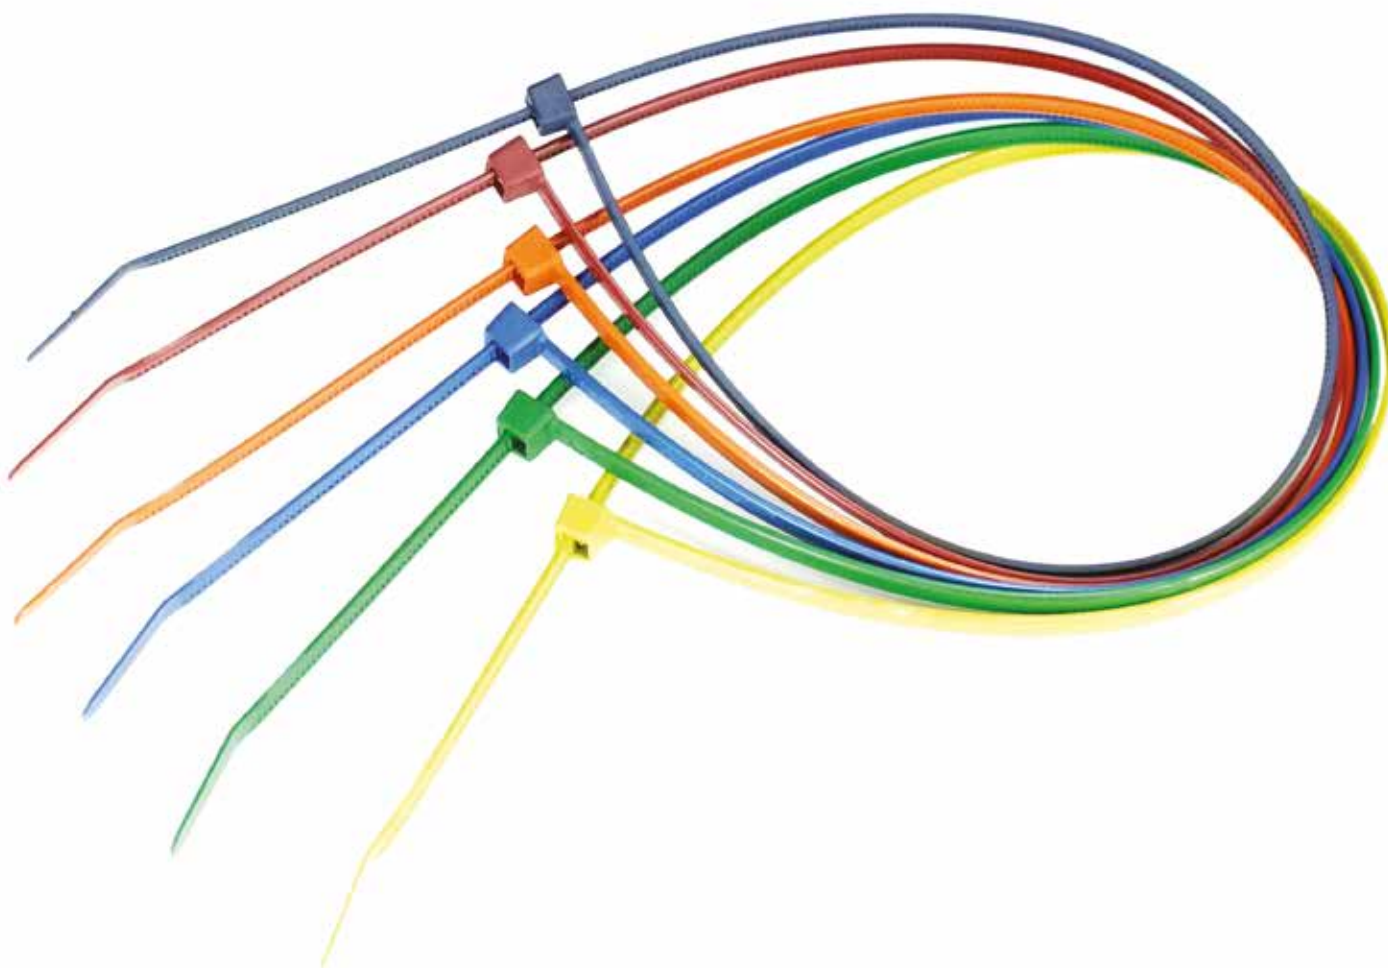

CODE	DESCRIPTION	PACK QTY
436-S572-P01	Paper Towel Dispenser - Blue Detectable Plastic	1
435-S572	Paper Towel Dispenser - Stainless Steel	1

## DETECTABLE CABLE/ZIP TIES

68	Detectable Nylon & Polypropylene Cable/Zip Ties
68	Detectable Reusable Releasable Cable/Zip Ties
68	Stainless Steel Cable/Zip Ties
68	Detectable Cable Clamps & Cable Tidy
69	Stainless Steel & Detectable Cable/Zip Tie Mounts
69	Detectable Cable Identification System
70	Detectable Bag Sealer / Gripper
70	Detectable Polythene Bags & Liners

Specifically designed for use within the food and pharmaceutical industries. Ideal for sack and bag tying in addition to cable and other simple retaining purposes.

The Detectamet range of cable/zip ties offer feature unique and innovative features.

The Detectamet Detectable Cable/Zip Ties have a metal content dispersed throughout the head and strap - so even cut-off sections can be detected.

Various sizes incorporate internal serrations allowing for a positive hold onto cable, hose and pipe bundles. The design of the head guarantees a high tensile strength whilst allowing a very low insertion force, this, combined with the bent tail design of many of the ties, ensures a simple and quick installation.

Easily installed by hand, they are suitable for the installation of cabling in and around the manufacturing process areas.

All ties are designed to make the task of fastening, bundling, clamping and managing wires easier.

When strength, aesthetics, reliability and performance are required, the Detectamet range of Metal Detectable Cable/Zip Ties have all your requirements covered.

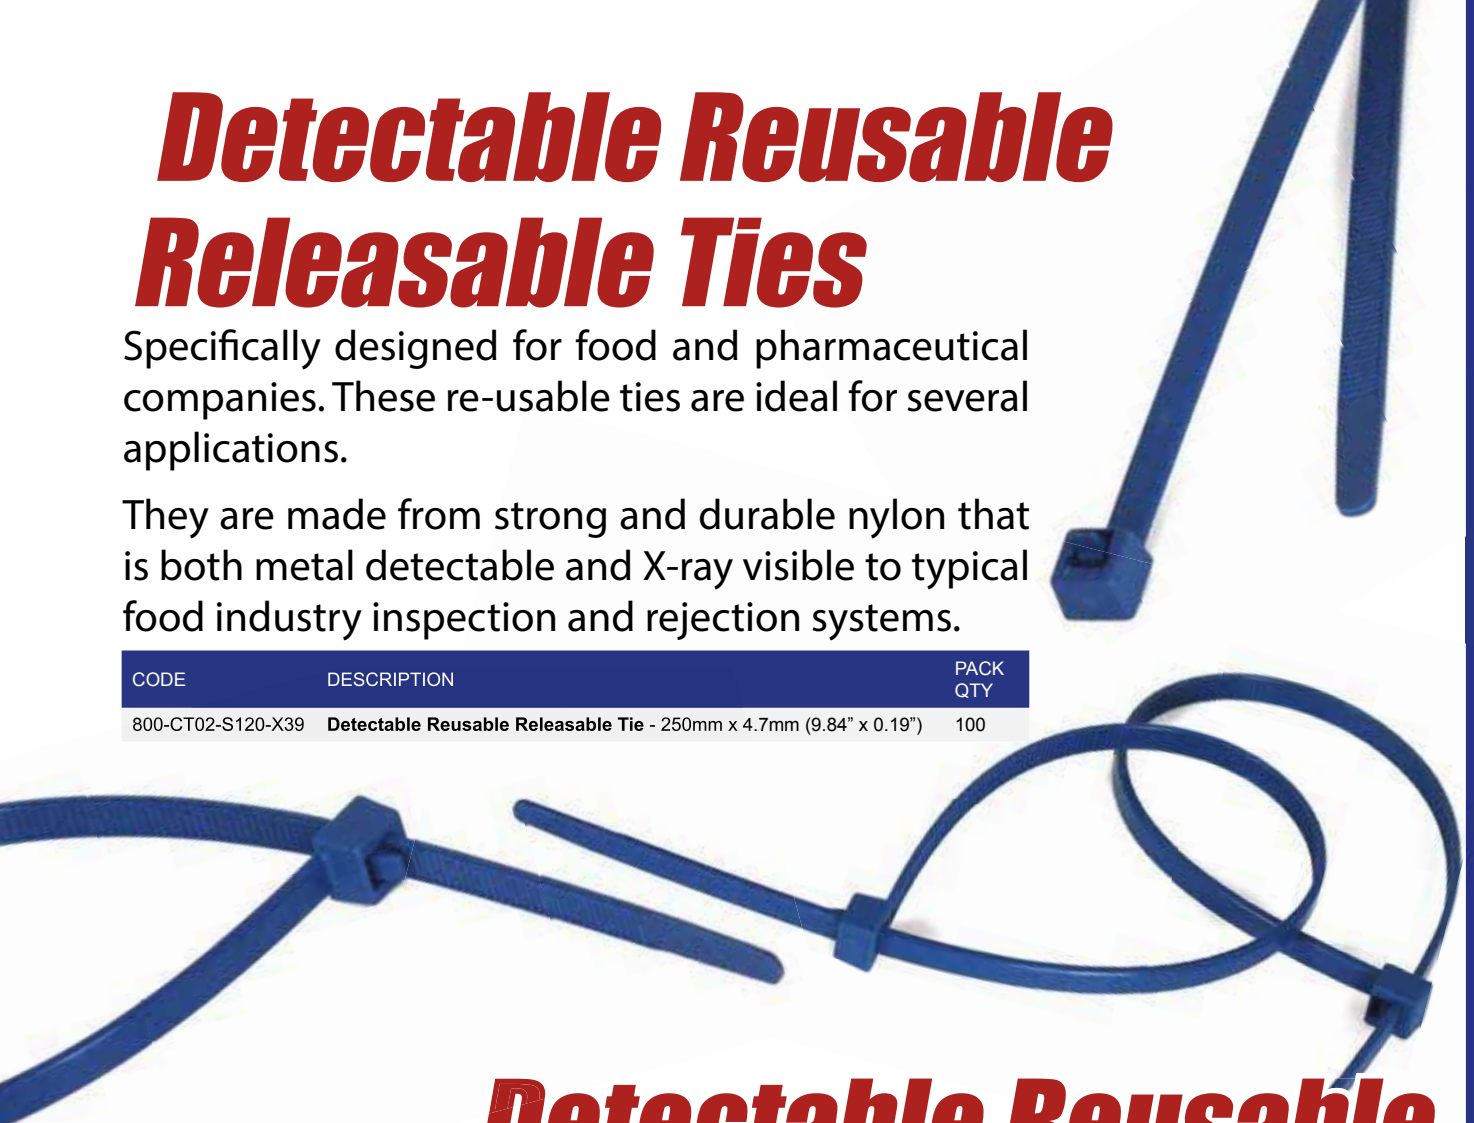

# Detectable Reusable Releasable Ties

Specifically designed for food and pharmaceutical companies. These re-usable ties are ideal for several applications.

They are made from strong and durable nylon that is both metal detectable and X-ray visible to typical food industry inspection and rejection systems.

CODE	DESCRIPTION	PACK QTY
800-CT02-S120-X39	<b>Detectable Reusable Releasable Tie</b> - 250mm x 4.7mm (9.84" x 0.19")	100

# Detectable Reusable Cable Clamps

Strong, durable and manufactured from Detectamet Food Safe Detectable Plastic. This detectable component is a releasable and reusable device for organizing all cables, ropes, belts, wires, cords, hand tools, office and computer peripherals.

CODE	DESCRIPTION	PACK QTY
802-S089-T020	<b>Detectable Reusable Cable Clamps</b> Small (11mm - 29mm / 0.43" - 1.14")	2
802-S091-T020	<b>Detectable Reusable Cable Clamps</b> Large (23mm - 53mm / 0.91" - 2.09")	2

## Detectable Nylon & Polypropylene Cable/Zip Ties

Specifically designed for use within the food, beverage and pharmaceutical industries. Ideal for sack and bag tying etc. Made from strong and durable nylon or polypropylene. As well as being detectable, the PP Cable/Zip Ties will float when dropped into liquid. An ideal tie to use in the beverage industries and relevant food environments.

CODE	DESCRIPTION	PACK QTY
800-CT03-S139-X39	92mm (3.62") x 2.4mm (0.094") - Blue Nylon	100
800-CT03-S113-X39	145mm (5.71") x 3.4mm (0.13") - Blue Nylon	100
800-CT03-S114-X39	150mm (5.91") x 3.5mm (0.14") - Blue Nylon	100
800-CT03-S116-X39	185mm (7.28") x 4.6mm (0.18") - Blue Nylon	100
800-CT03-S118-X39	200mm (7.87") x 4.6mm (0.18") - Blue Nylon	100
800-CT03-S125-X39	380mm (14.96") x 4.7mm (0.19") - Blue Nylon	100
800-CT03-S126-X39	390mm (15.28") x 7.6mm (0.3") - Blue Nylon	100
800-CT04-S126-X39	390mm (15.35") x 4.6mm (0.18") - Blue Nylon Colors Available: Blue(CT04), Red (CT05), Green (CT06), Yellow (CT07), Orange (CT09)	100
800-CT01-S139-X39	92mm (3.62") x 2.4mm (0.094") - Blue Nylon with Stainless Steel Lock	100
800-CT01-S117-X39	186mm (7.32") x 4.8mm (0.19") - Blue Nylon with Stainless Steel Lock	100
800-CT01-S122-X39	340mm (13.39") x 7.0mm (0.28") - Blue Nylon with Stainless Steel Lock	100
800-CT01-S123-X39	360mm (14.17") x 4.8mm (0.19") - Blue Nylon with Stainless Steel Lock	100
800-CT08-S139-X39	92mm (3.62") x 2.4mm (0.092") - Blue Polypropylene with Stainless Steel Lock	100
800-CT08-S117-X39	186mm (7.32") x 4.8mm (0.19") - Blue Polypropylene with Stainless Steel Lock	100
800-CT08-S122-X39	340mm (13.39") x 7.0mm (0.28") - Polypropylene with Stainless Steel Lock	100
800-CT08-S123-X39	360mm (14.17") x 4.8mm (0.19") - Blue Polypropylene with Stainless Steel Lock	100

## Detectable Reusable Releasable Nylon Cable/Zip Ties

Specifically designed for use within the food and pharmaceutical industries. Ideal for sack and bag tying etc. Made from strong and durable nylon. Now available as a releasable and reusable tie.

CODE	DESCRIPTION	PACK QTY
800-CT02-S120-X39	250mm x 4.7mm (9.84" x 0.19")	100

## Stainless Steel Cable/Zip Ties

Metal ties are ideal for all areas with requirements for high holding force, reliability and fire resistance. The Detectamet range of stainless steel cable/zip ties can be used in chemical industry and on oil platforms as well as in mass transit, shipbuilding and mining industry.

Stainless Steel Cable/Zip Ties are also suitable for machine building, apparatus construction and in the outside area of radio technology. Additionally the ties are a good solution to fix lighting in theatres and exhibition halls.

## Detectable Cable Clamps

Detectable cable clamp is strong and durable, manufactured from Detectamet Food Safe Detectable Plastic. This detectable component is a releasable and reusable device for organizing all cables, ropes, belts, wires, cords, hand tools, office and computer peripherals.

CODE	DESCRIPTION	PACK QTY
802-S089-T020	Small (11mm - 29mm / 0.43" - 1.14")	2
802-S091-T020	Large (23mm - 53mm / 0.91" - 2.09")	2

## Detectable Cable Tidy

Detectamet's new spiral cable tidy is suitable for organizing and protecting cables within industries that requires material to be detectable, such as bakery, beverage, confectionery, dairy, meat & poultry.

- Available in 4mm (0.16"), 9mm (0.35") & 16mm (0.63") diameters
- Supplied on a 30m (32.81 yards) roll.

CODE	DESCRIPTION	PACK QTY
803-S223-P01	Detectable Cable Tidy - 16mm (0.63") diameter	1 roll
803-S225-P01	Detectable Cable Tidy - 9mm (0.35") diameter	1 roll
803-S224-P01	Detectable Cable Tidy - 4mm (0.16") diameter	1 roll

## Detectable Cable/Zip Tie Mounts

Blue in color for easy visual detection, the screw fixing mounts can be secured to any surface to hold a cable/zip tie in place. This screw fixing element means that the product does not require any adhesive backing, removing the risk of the adhesive becoming detached from the base and entering the manufacturing process undetected.

The mounts also boast a high metal pigment, meaning that even small 'cut-off' pieces are detectable and they can be used as part of the HACCP process.

CODE	DESCRIPTION	PACK QTY
808-S036-X11	Detectable Cable/Zip Tie Mounts 19mm (0.75") x 19mm (0.75")	100
808-S037-X11	Detectable Cable/Zip Tie Mounts 28mm (1.1") x 28mm (1.1")	100

## Stainless Steel Cable/Zip Tie Mounts

Suitable for the secure fixing of cables, tubing, conduits and pipes within the most arduous of environments. Providing a complete fastening and fixing solution when used in conjunction with stainless steel ties up to 10.0 mm width. They are ideal for use within shipbuilding, oil and gas (offshore), industrial machinery and vehicles, food and beverage, power, renewable energy and process industries.

- 10mm (0.39") slot width
- Single 4.2mm (0.17"), 5.3mm (0.21") or 6.3mm (0.25") fixing hole

CODE	DESCRIPTION	PACK QTY
807-S002-X11	Stainless Steel Cable/Zip Tie Mounts Hole Size: 4.2mm (0.17")	100
807-S032-X11	Stainless Steel Cable/Zip Tie Mounts Hole Size: 5.3mm (0.21")	100
807-S035-X11	Stainless Steel Cable/Zip Tie Mounts Hole Size: 6.3mm (0.25")	100

## Detectable Cable Identification System

Detectamet's cable identification system has been specifically developed for the food and pharmaceutical industries for use with our detectable cable/zip ties.

The tag allows you to customise your tag by writing directly on to it or printed using a thermos transfer system. It is available in 2 sizes 65mm x 11mm (2.56" x 0.43") or 100mm x 15mm (3.94" x 0.59")

The identification system enables you to customise your tag using the characters 'A-Z and 0-9'. Dependant on the carrier size you can insert 8 to 24 characters which can be combined and fixed on-site and fitted with the metal content cable/zip ties.

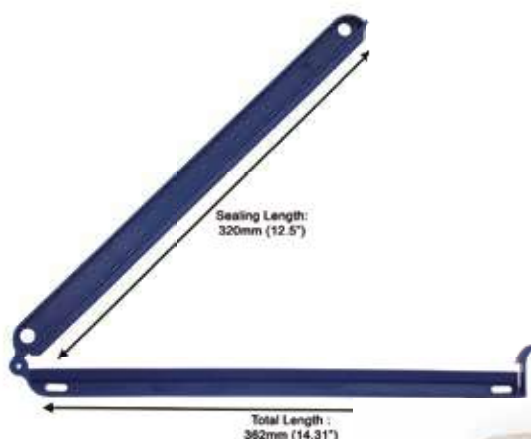

CODE	DESCRIPTION	PACK QTY
797-CT04-S663-X54	Detectable Cable/Zip Tie Tag 65mm x 11mm (2.56" x 0.43")	100
797-CT04-S665-X54	Detectable Cable/Zip Tie Tag 100mm x 15mm (3.94" x 0.59")	100

PRODUCT**

## Detectable Bag Gripper / Sealer

Reduce the risk of cross contamination and preserve hygienic standards by securing bag contents with this unique Food Safe Detectable Bag Gripper / Sealer.

The locking ability of the Detectable Bag / Sack Gripper will help to minimize the risk of contamination, leakage and accidents within your plant / processing area. Fantastic for use when storing ingredients in very low temperatures such as a freezer.

CODE	DESCRIPTION	PACK QTY
805-S231-T098	Detectable Bag Gripper / Sealer	5

## Detectable Plastic Bag Clip / Closure

The NEW Detectamet Detectable Plastic Clip / Closure is fully Metal Detectable & X-Ray Visible. Durable at very low temperature of -50°C / -58°F.

Perfect for storing ingrediaents in very low temperatures such as a freezer.

- Sealing length: 320mm - 12.5 inch
- Total length: 362mm - 14.31 inch
- Weight: 94g.

CODE	DESCRIPTION	PACK QTY
804-S236	Detectable Bag Clip	1

## Detectable Polythene Bags & Liners

Recent internal industry reports on sources of physical contamination of food found that at least 34% of incidents involved process and product packaging. The New Fully Detectable Bag offers the food industries a less risky means of packaging for bulk handling in food warehouse storage and shipping.

Can be made in a variety of widths, lengths, thicknesses, Colors and films to suit all your applications and can be made plain or printed in up to 6 Colors.

Suitable applications for Detectable Polythene Bags, Liners & Covers include:

- Food bags
- Bin liners
- Box liners
- Extra large heavy duty ingredients bags
- Dolav liners
- Pallet covers
- Sheets and film

## DETECTABLE KEYHOLE TAGS & LABELS

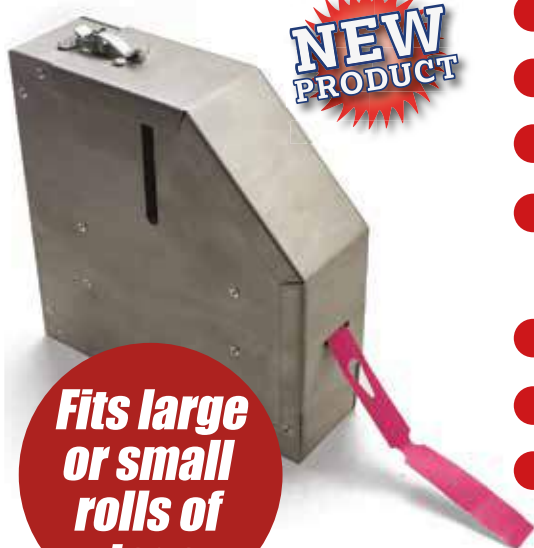

72	Stainless Steel Keyhole Tag Dispensers
73	Detectable Keyhole Tags
73	Detectable Reusable Plastic Tags
73	Detectable Sequentially Numbered Plastic Tags
74	Detectable Traceability Tags
74	Detectable Plastic ID Tags
74	Detectable Lockout & ID Tags
74	Detectable Food Industry Health & Safety Signs

The "Detectamet" range of Tags allow small traces of label fragments to be detected, at any stage in the production process. As well as detecting product contamination before delivery to its customers, food / pharmaceutical company users will also be able to write production and batch information on the tags, enabling complete traceability. Additional customer specific information can also be added to the Detectamet labels & tags in the range to order.

# Stainless Steel Dispensers

**NEW  
PRODUCT**

**Fits large  
or small  
rolls of  
tags**

- Hygienic and easy to use
- Reduce contamination and errors
- Less waste and excellent life cycle cost
- Single and multi-roll dispensers for large or small tags
- 304 stainless steel (316 grade by request)
- Holds large capacity rolls of 500 tags
- Pre-drilled holes for wall mounting

- Bespoke designs available
- Own branding - suitable for use with Detectamet's Laser Engraver.

Perfect for production areas, food service, shipping rooms, retail, and industrial applications anywhere an easy to use label dispenser is needed. The dispenser features a hinged lid with latches for quick and easy refilling. A fill level indicator on the side shows when the roll is close to running out.

## Detectable Traceability Tags

Food / Pharmaceutical processing most commonly takes place across a number of areas in a production facility, contamination cases can often occur at any time. The detectable ID tags have been developed to allow small traces of label & tag fragments to be detected at any stage of the production process.

Can be used in conjunction with the Detectamet range of Detectable Cable/Zip Ties.

9 Color Available: Blue, Red, Yellow, Green, White, Purple, Orange, Black & Pink. Size: 55mm (2.25") x 20mm (3/4").

**Suitable for laser engraving to include letters, numbers, company logos or critical safety information.**

CODE	DESCRIPTION	PACK QTY
205-A65-P01-S130	Detectable Traceability Tag	10

## Detectable Plastic ID Tags

Manufactured from Detectamet's Detectable Plastic, the new ID tag is ideal as an identifier or where warnings are required. Available in Detectamet's full range of 8 colors for identification and color coding.

- Small - 85mm (3.35") diameter x 3.2mm (0.13 in) thick
- Large - 110mm (4.35") diameter x 3.2mm (0.13 in) thick.

May be hand marked using our range of permanent and erasable dry wipe markers. Can be drilled to accommodate a split ring or easy attachment using a detectable cable/zip tie.

**Suitable for laser engraving to include letters, numbers, company logos or critical safety information.**

CODE	DESCRIPTION	PACK QTY

## Detectable Food Industry Health & Safety Signs

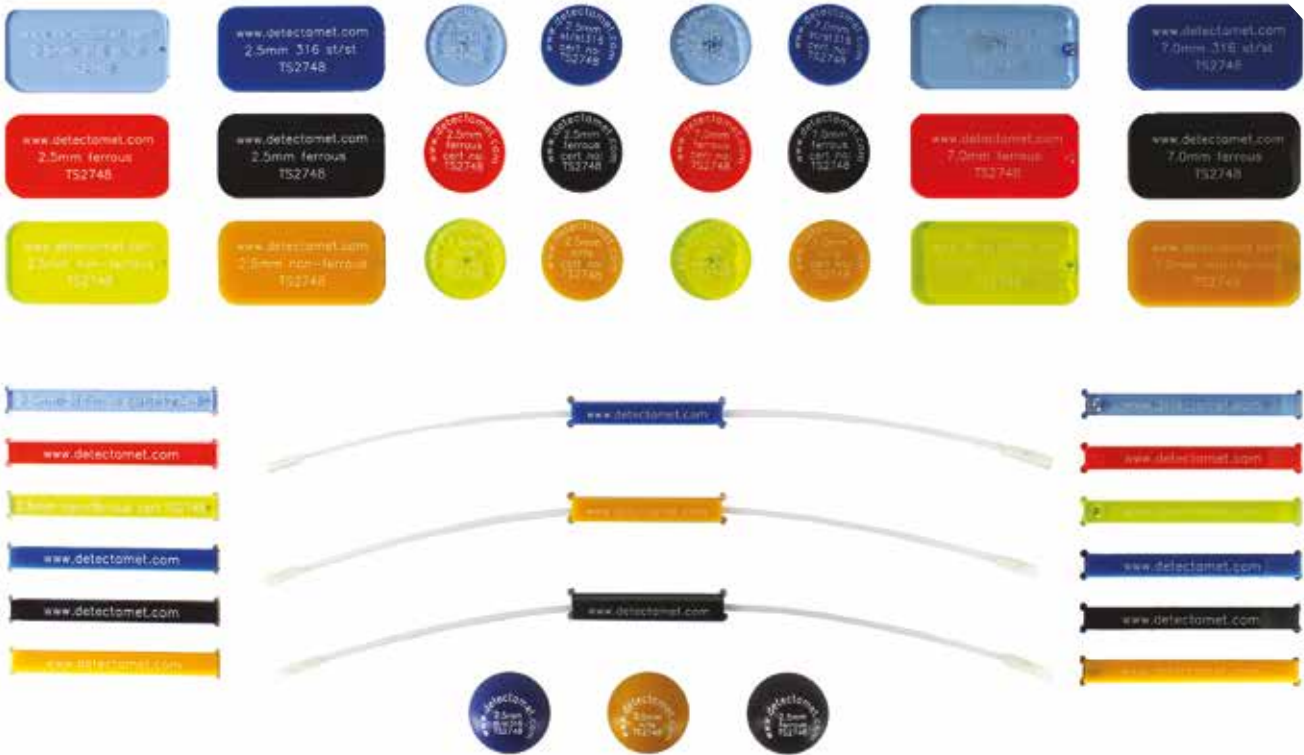

Detectamet are able to offer a wide range of metal detectable & x-ray visible mandatory health and safety signs designed for use within the food processing industry, or where the potential for foreign body contamination is a problem.

As well as our core range of industry standard health and safety signs, we can also supply custom designs and materials including Stainless Steel & Anodized Aluminum.

- Standard designs: Wear Hairnets, Wear Face Shields, Wear Safety Boots, Wash Your Hands, Wear High Visibility Jackets, Wear A Mask, Wear Protective Clothing, Wear Ear Protectors, Wear Protective Gloves, Detectable Products Area
- Sizes available: A3, A4 & A5.

## METAL & X-RAY DETECTOR TEST CALIBRATION PIECES

- 76 Metal Detector Test Pieces
- 76 X-Ray Detector Test Pieces
- 76 Test Piece Accessories

Detectamet can manufacture a complete range of precision metal detector test pieces. Each calibrated test piece is color coded for simple visual verification and fitted with a calibrated and certified bearing to ISO9002 and AFBMA Calibration.

We have developed a range of test products for X-Ray Machines which includes low, medium and high density materials acting as the medium and combining these with test contaminants of varying densities.

With our experience of producing high quality test pieces for metal and X-ray detection in the food and pharmaceutical industries we have found it increasingly beneficial to our clients to make information easily available for quality assurance purposes. All Test Pieces are supplied with a full certificate of conformity which we will keep a record of for you for 3 years.

Each Test Piece has a number etched onto its side which relates back to the Certificate of Conformity supplied by the bearing manufacturer. When your Test Pieces are purchased from Detectamet our name will also be etched onto the Test Piece - allowing you or any member of staff to trace it back to us. Alternatively we can add your company name upon request.

We can also etch extra numbers on to the Test Pieces if required - to allow for individual identification purposes such as shift workers or issue numbers etc.

This ease of access coupled with a high quality manufacturing process, simple visible detection and color coded verification makes Detectamet Test Pieces a very cost effective way of managing the important aspects of safety through quality control.

Detectamet are experts at Bespoke Test Calibration Pieces, please contact our office with your requirements.

Used in the following Industries:

- Metal Detector Manufacturer
- Metal Detector Service Industry
- Food Processing & Food Safety
- Pharmaceutical
- Clothing/Garment Inspection
- Footwear manufacturer

# Metal & X-Ray Detector Test Calibration Pieces

Detectamet's wide range of detector Test Pieces and X-Ray Test Cards are available with various sizes and types of contaminant, to suit many applications.

All are calibrated and certified to BS EN ISO 9002 and UKAS calibration.

Regular performance testing of both metal detection and x-ray inspection equipment is an essential component of a Quality Management System.

Confirming the accurate performance of a company's process controls to ensure compliance to the QMS requires calibrated test equipment with full traceability.

All Test Pieces purchased from Detectamet are issued with a free of charge certificate of conformity relating to the contaminant.

HACCP compliance requires inspection machines to be routinely tested for Quality Assurance. Practice all due diligence by integrating Detectamet's wide range of Bespoke Test Pieces into your Quality Control Management System. Made with high visibility color to allow easy recognition and etched with a traceable code.

**Detectamet's team are experts at getting you the perfect Test Piece to suit your needs.**

## Contaminants available:

- Ferrous
- Non-Ferrous
- Stainless Steel 304 or 316
- Aluminum
- Glass
- Crystal Glass
- Ceramic
- Wire

## Detectable Storage Boxes

A versatile detectable storage box with clip fastening lid. Useful for any number of applications from holding test pieces, first aid dressings, coins and keys etc. The products in this range are all produced from a specially formulated material based on high impact food safe polypropylene. This material has the ability to be detected and rejected by typical metal detection and x-ray machines used in the food processing industry.

## Stainless Steel & Aluminum Ring Binders

These products have been manufactured from high quality Stainless Steel & Aluminum, available with 2, 3 and 4 rings.

Benefits Include:

- Manufactured from top quality, stylish Anodized Aluminum or Stainless Steel.
- Ideal for production area environments or for archiving important documents.
- Heavy duty and lightweight - beneficial during audits and daily record taking
- Ability to wipe clean

Dimensions:

- A3 Size - 420mm x 290mm x 50mm (16 1/2" x 11 1/2" x 2")
- A4 Size - 255mm x 310mm x 50mm (10" x 12 1/4" x 2")

300-O06-P45	A5 Stainless Steel Portrait (Landscape available) Without Clip	1

## Stainless Steel Wall Mounted Clipboard Holder

The new Detectamet Wall Mounted Stainless Steel Clipboard or File Holder can be easily installed on a handy wall or partition. There are two ready to use sizes designed to take A4 or A3 sized clipboards or files. The high quality 304 grade Stainless Steel is of a high hygiene standard. Produced in Britain, the A4 and A3 units can be tailor made using 316 grade Stainless Steel and special dimension units can also be made to order.

A4 Size: 247mm x 243mm x 40mm (approx. 9 7/8" x 9 1/2" x 1 1/2")

- Will hold two or three A4 clipboards.

A3 Size: 250mm x 490mm x 40mm (approx. 9 7/8" x 19 1/4" x 1 1/2").

- Will hold five or six A4 clipboards or three A3 clipboards

### Would you like to engrave your products?

Detectamet has a state of the art laser ready to cut, etch, mark or engrave a wide variety of materials. We offer bespoke laser marking on tablet computers, laptops and other similar products. We have the capabilities to laser engrave or cut a multitude of items, from simple text to complete graphics.

Sequentially numbering and marking is available for virtually all Detectamet's Detectable Plastic, Stainless Steel & Anodized Aluminium products including pens, knives, scissors, tags, scoops, scrapers and cable ties. These detectable products can then be included in your traceability systems and help create an audit trail that can be used as part of HACCP.

Please contact our Sales Office with details of your requirements.

## Mobile Aluminum Desks

Separate compartment for pens and pencils. With self-locking latch to prevent contents from spilling and a sturdy, easy to open metal clip holds your forms in place.

Detectamet is now able maximize the use of our mobile desks by applying a new and revolutionary 'cling easy' whiteboard surface. It can be applied to the front, reverse or inside cover!

From food processing and brewing, through distribution and storage to serving food, installing Detectamet stainless steel equipment brings unique benefits to the food and pharmaceutical industry.

One of the great advantages of the Detectamet stainless steel range is that it imparts no taste to the food/products that is prepared on it. Typical uses include kitchens, dairies, ham curing and fish storage. The grades used by Detectamet are 304, for ambient temperatures and low acid concentrations, and 316 for harsher environments. For example 304 is used in cheese and dairy production, but where salted (ham) products is being prepared 316 is used. In ice cream production /processing 316 is specified because strong anti-bacteriological cleaning and rinsing systems are used.

A further advantage is that stainless steel is resistant to damage caused by condensation cycles in high humidity areas such as kitchens etc. The Detectamet range also incorporates the use of other suitable metals for food applications such as aluminum and brass. Declarations of conformity are available on request.

## Stainless Steel Paddles

Detectamet offer a large selection of Stainless Steel Paddles for Food Processing & Material Handling. Our paddles are approved for direct food contact and are Certified NSF Standard 2 - Food Equipment.

- NSF Certified Standard 2 - Food Equipment
- Designed for the Food Processing Industry
- Electropolished finish enhances corrosion resistance; improves surface finish and ease of cleaning
- Tough and durable stainless steel makes this paddle ideal for mixing bulk materials
- Available in 304 grade stainless steel

CODE	DESCRIPTION	PACK QTY
671-S063	Stainless Steel Paddle - 36" (914mm) long	3
671-S064	Stainless Steel Paddle - 42" (1067mm) long	3
671-S065	Stainless Steel Paddle - 48" (1219mm) long	3
671-S067	Stainless Steel Paddle - 60" (1524mm) long	3

672-T133-S500

672-T137-S504

## Stainless Steel Forks

Detectamet offer a large selection of Stainless Steel Forks for Food Processing & Material Handling. Our forks are approved for direct food contact and are Certified NSF Standard 2 - Food Equipment.

- Tough and durable stainless steel makes these forks ideal for moving bulk materials
- Electro-polished finish enhances corrosion resistance; improve surface finish and ease of cleaning
- Overall lengths range from 44" (1120mm) to 60" (1525mm)
- Tine lengths range from 8.5" (215mm) to 12" (305mm)

CODE	DESCRIPTION	PACK QTY
672-T133-S500	Stainless Steel Fork - 5 Tines - 12" Long	3
672-T134-S500	Stainless Steel Reinforced Fork - 5 Tines - 12" Long	3
672-T135-S500	Stainless Steel Super Reinforced Fork - 5 Tines - 12" Long	3
672-T133-S501	Stainless Steel Fork - 5 Tines - 8.5" Long	3
672-T134-S501	Stainless Steel Reinforced Fork - 5 Tines - 8.5" Long	3
672-T135-S501	Stainless Steel Super Reinforced Fork - 5 Tines - 8.5" Long	3
672-T133-S502	Stainless Steel Fork - 4 Tines - 12" Long	3
672-T134-S502	Stainless Steel Reinforced Fork - 4 Tines - 12" Long	3
672-T135-S502	Stainless Steel Super Reinforced Fork - 4 Tines - 12" Long	3
672-T133-S503	Stainless Steel Fork - 4 Tines - 8.5" Long	3
672-T134-S503	Stainless Steel Reinforced Fork - 4 Tines - 8.5" Long	3
672-T135-S503	Stainless Steel Super Reinforced Fork - 4 Tines - 8.5" Long	3
672-T136-S504	Stainless Steel Drag Fork - 4 Tines - 9" Long	3
672-T137-S504	Stainless Steel Reinforce Drag Fork - 4 Tines - 9" Long	3
672-T138-S504	Stainless Steel Super Reinforced Drag Fork - 4 Tines - 9" Long	3
672-T139-S505	Stainless Steel Cheese Fork - 5 tines - 10" long	3

## Stainless Steel Keyhole/Loop Tag Dispensers

Manufactured in Britain from high quality stainless steel the new Detectamet Keyhole Tag Dispensers are designed and made to hold single or multiple rolls of either large or small tags.

Perfect for production areas, food service, shipping rooms, retail, and industrial applications and anywhere a simple label/tag dispenser is needed. The dispensers are wall mountable and feature a hinged lid for quick and easy refilling. A view slot on the side indicates when the roll is close to running out. Bespoke sizes and designs are available, please contact us for more details.

CODE	DESCRIPTION	PACK QTY
558-S176	Stainless Steel Single Roll Large Tag Dispenser	1
558-S177	Stainless Steel Single Roll Small Tag Dispenser	1
558-S178	Stainless Steel 8 Roll Large Tag Dispenser	1
558-S179	Stainless Steel 8 Roll Small Tag Dispenser	1

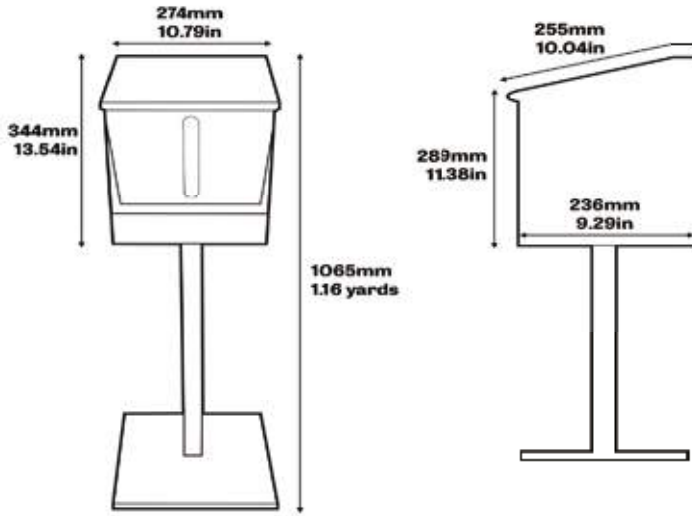

See page 73 for our full range of detectable tags and labels.

## Multi-Purpose Stainless Steel PPE Dispenser

Multi-purpose stainless steel dispenser for the distribution of PPE items that can be free standing on a stainless steel stand. The stainless steel construction permits easy and efficient cleaning, and a vertical slot in the front face lets supervisors see when the dispenser needs refilling. Suitable for a wide range of PPE equipment including:

- Mobcaps (Approximate capacity 200)
- Hair Nets (700)
- Beard Snoods (600)
- Ear Plugs (600 pairs)
- Overshoes (600)
- Oversleeves (200).

CODE	DESCRIPTION	PACK QTY
453-P45-A26	Stainless Steel Dispenser - with Stand	1
453-P45-A25	Stainless Steel Dispenser - Wall Mountable	1
453-P45-A27	Stainless Steel Dispenser - with Mobile Stand	1

## Stainless Steel Tote Bin/Buggy Cover Dispenser

Made in Britain from high quality stainless steel, the Tote Bin/Buggy cover dispenser from Detectamet is designed to accommodate a roll of 250 covers. The dispenser is wall mounted and features a latch secured and hinged lid for quick and easy refilling. A view slot on the side makes it easy to see when the roll is about to run out.

Width - 770mm (30.3"), Height - 220mm (8.5"), Depth - 220mm (8.5").

CODE	DESCRIPTION	PACK QTY
589-T198	Stainless Steel Tote Bin/Buggy Cover Dispenser	1

Waste and contamination are just two challenges for food processing management teams unless they establish storage and dispensing systems that are easy to find and firmly fixed for straight forward access. Detectamet's new Stainless Steel Glove Dispensers help them to successfully meet these challenges. Made from high quality stainless steel they are supplied in four sizes to hold a single box of 100 gloves or up to four boxes loaded vertically. They can be screw mounted onto a wall where they will be easy to clean and sanitize.

Additional varieties include a single box dispenser that has a bar hook to hang from a pipe, bar or the top of a panel. Another option is a single box that is enclosed with a front oval exit and a small side access to allow for replacement of an empty box.

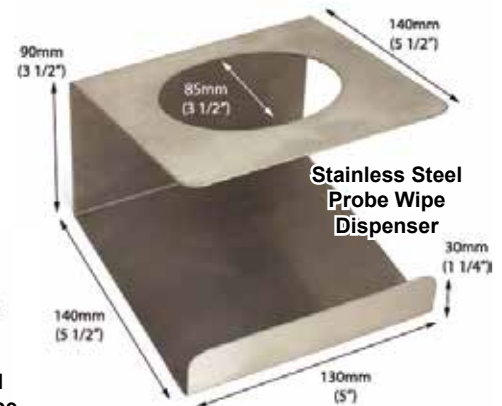

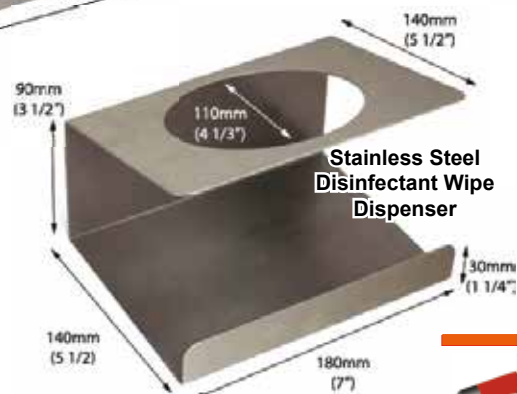

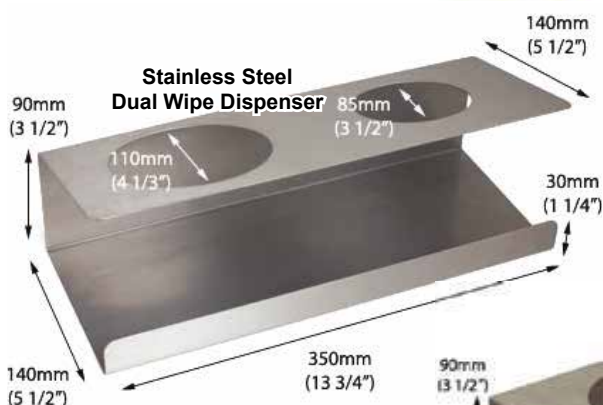

- Width - 250mm (9.75")
- Depth - 70mm (2.75")
- Height - 1 box 140mm (5.5"), 2 boxes 290mm (11.5"), 3 boxes 430mm (17"), 4 boxes 580mm (22.75")
- Folded hanging hook suitable for bars with up to 30mm (1.25") diameter.
- Rolled hanging hook suitable for bars with up to 45mm (1.75") diameter.

CODE	DESCRIPTION	PACK QTY
454-A151-A157	Detectable Glove Dispenser - 1 Box Capacity	1
454-A152-A146	Detectable Glove Dispenser - 2 Box Capacity	1
454-A153-A146	Detectable Glove Dispenser - 3 Box Capacity	1
454-A154-A157	Detectable Glove Dispenser - Horizontal - 4 Box Capacity	1
454-A154-A158	Detectable Glove Dispenser - Vertical - 4 Box Capacity	1
454-A151-A158	Detectable Glove Dispenser - Enclosed - 1 Box Capacity	1
454-A146-A17	Detectable Glove Dispenser - Folded Hanging	1
454-A39-A17	Detectable Glove Dispenser - Rolled Hanging	1

## Stainless Steel Wipe Dispensers

The Wipe Dispenser Holders are designed to hold one or two tubs of wipes and can be mounted on a handy wall. These will help to keep the work areas free of clutter and further reduce the risk of mislaying the tubs and the possibility of contamination.

CODE	DESCRIPTION	PACK QTY
431-A25-X37-P45	Stainless Steel Wall Mounted Dispenser Suits Single Tub of Probe Wipes	1
431-A25-X36-P45	Stainless Steel Wall Mounted Dispenser Suits Single Tub of Disinfectant Wipes	1
431-A25-X38-P45	Stainless Steel Wall Mounted Dual Dispenser Suits 1x Tub of Probe & 1x Tub of Disinfectant Wipes	1

## METAL & X-RAY DETECTABLE ENGINEERING PRODUCTS

98	Detectasil® Detectable Silicone Sealant/Caulk
99	Detectamet Detectable O-Rings & Seals
99	Detectamet Detectable Sifter Balls
99	Detectamet Detectable Silicone Rubber Extrusions
100	Detectamet Detectable Silicone Rubber Sheet

102	Detectamet Detectable Polyurethane Belt
102	Detectamet Detectable Polythene
102	Detectamet Detectable Mouse Box
102	Detectable Stainless Steel Scrapers
103	Detectamet Detectable Compounds

Detectamet has developed a wide range of detectable engineering materials and equipment for the food and pharmaceutical industries. This part of our product range grows yearly, as we continue to provide solutions for our customers. Not only can we offer the standard products in this catalog, but also provide a bespoke design and development service which is provided by a team of dedicated staff.

# Detectasil® Detectable Silicone Sealant / Caulk

Detectasil® from Detectamet is a detectable Silicone Sealant/Caulk that can be 'seen' by metal and X-ray detection systems in the food industry. The sealant is used in structural fitting and equipment installation and reduces the risk of undetected contamination of food products.

It is available in white or blue, and the 310ml tube fits standard applicators. The detectable additive tastes nasty to rodents and deters them from eating the sealant after application.

## KEY FEATURES

- Detectable by standard metal and X-ray detection systems
- Designed for use in temperatures from -22°F (-30°C) to 302°F (150°C)
- Unpalatable to rodents
- Standard applicator gun

## SUITABLE APPLICATIONS

- ✓ Window and Door Frames
- ✓ Wall panels
- ✓ Machinery
- ✓ Finishing
- ✓ Worktops & laminates
- ✓ Sinks and other wet installations

## AVAILABLE COLORS

CODE	DESCRIPTION	PACK QTY
820-P01	Detectasil 310ml Tube - Blue	1
820-P06	Detectasil 310ml Tube - White	1

## Detectamet Metal Detectable O-Rings

Specifically developed to meet the stringent demands of the food and pharmaceutical industries. The New Detectamet Metal Detectable range of O-Rings includes FDA compliant (on most sizes) or food safe grades of EPDM, Nitrile and Fluorocarbon (FKM) compounds.

Fragments of Detectamet as small as 2mm (0.079") can be identified by metal detector equipment.

Features of Metal Detectable O-Rings include:

- Early detection and containment of contamination
- Reduced product loss
- Increased productivity
- FDA compliant elastomer materials
- Free from animal derived ingredients
- Temperature range from -40°F (-40°C) to 392°F (200°C)
- Blue seals to assist in easy identification
- Detectamet compounds can be molded into O-Rings and custom components
- Detectamet O-rings available from 0.25mm to over 2 meters in diameter, in any combination of ID and cross section, both in small quantities and large volumes.

Material Options

- FKM/FPM
- NBR or BUNA N
- EPD/EPDM
- Silicone

X-Ray Detectable O-Rings are available upon request.  
Please contact our technical team with your specific requirements.

## Detectamet Detectable Sifter Cleaning Balls

Detectamet offer a wide range of cleaner balls to fit any sifting application. Sifter balls work inside screen decks to prevent the screens from clogging which leads to a loss in sifter capacity along with an increase in sifter tailings or overs.

Shore Hardness: 85

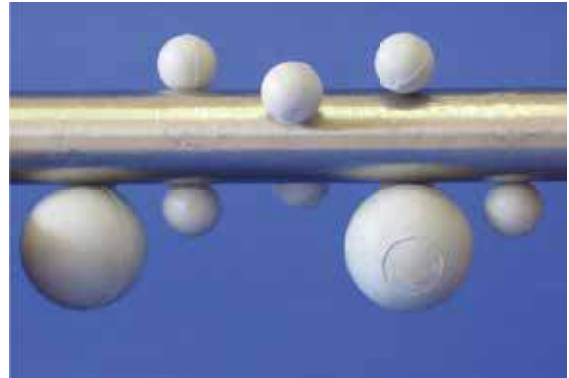

Sizes: 2" (50mm), 1.625" (42mm), 1.375" (35mm), 0.625" (15mm)

Color: Light Gray

Temperature Range: 0° to 180° F / -17° to 80° C

FDA Requirements: FDA Acceptable for Direct Food Contact per 21CFR177.2430 (polyether resins) & CTS 75807

Please contact us with your requirements.

## Detectamet Detectable Silicone Rubber Extrusions

Detectamet are able to offer a metal detectable rubber silicone extrusion for general purpose compound having good mechanical properties. Features include good heat stability inside temperature range, supplied in specific Color; blue. The popular use of this product is found in Food and Dairy, Bakery, Beverage, Pharmaceutical and OE Markets.

A metal detectable general purpose compound having good mechanical properties. Features include good heat stability inside temperature range, supplied in specific Color; blue.

All the constituents in this compound conform to FDA regulation 21 CFR 177.2600.

Shore hardness: 75 +/- 5

Elongation at break: 320 %

Tensile strength: 8.0 MPA

Tear strength: 12 KN/M

Specific gravity: 1.22

Temp range: -94°F (-70°C) to +392°F (+200°C) (with heat stabilizer up to 482°F/250°C)

Compression set: 32%

Detectamet are also available to manufacture extrusions to suit your specific applications, i.e. lid seals, tank vessels, processing equipment, etc.

Please contact us with your requirements.

## Detectamet Detectable Silicone Rubber Sheet

Metal Detectable Rubber Sheet. Impregnated Silicone Calendered Sheet Grade. Available in 1.5mm (0.059"), 2.0mm (0.079"), 3.0mm (0.12"), 4.0mm (0.16") and 6.0mm (0.24") as standard (minimum order 2mt x 1mt. also available in 1mt increments up to 10mt long).

Heat Stabilizing Available 300mm (11.81") wide only - please contact us direct for details.

This product contains only ingredients that are listed by the American Food & Drugs Administration (FDA) under the 21 CFR number 177-2600.

Typical Applications: Metal detectable seals, gaskets, joints and strips used in sensitive food, drink and pharmaceutical applications.

CODE	DESCRIPTION	PACK QTY
815-S148-P01	Sheet size 2m x 1m (longer lengths available POA) - 2m x 1m x 1.5 mm thick (2.19yrd x 1.09yrd x 0.059")	1
815-S149-P01	Sheet size 2m x 1m (longer lengths available POA) - 2m x 1m x 2 mm thick (2.19yrd x 1.09yrd x 0.079")	1
815-S150-P01	Sheet size 2m x 1m (longer lengths available POA) - 2m x 1m x 3 mm thick (2.19yrd x 1.09yrd x 0.12")	1
815-S151-P01	Sheet size 2m x 1m (longer lengths available POA) - 2m x 1m x 4 mm thick (2.19yrd x 1.09yrd x 0.16")	1
815-S152-P01	Sheet size 2m x 1m (longer lengths available POA) - 2m x 1m x 6 mm thick (2.19yrd x 1.09yrd x 0.24")	1

## Detectamet Detectable Acetal

- Good balance of stiffness and impact strength for applications where higher dimensional stability is required.
- Metal and visual detection by blue Color
- Detection by x-ray also possible
- Continuous use temperature up to 105°C (221°F)

### Applications

- Scrapers
- Funnels
- Guiders
- Grippers
- Gears

### Sizes

- Extruded Rods 30/50/80mm x 1000/3000mm (1.18"/1.197"/3.15" x 1.09yrd/3.38yrd)
- Extruded Plates 20/40/80 x 610 x 1000/3000mm (0.79"/1.57"/3.15" x 1.09yrd/3.38yrd)

## Detectamet Detectable PTFE

Detectable Teflon. Metal Detectable PTFE for use in the Food Industry by Detectamet.

Suitable for scrapers, wearstrips, bushes in high temperature applications.

- Chemical resistant.
- Corrosion resistant.
- Can withstand temp of +500°F (+260°C) and down to -436°F (-260°C).
- FDA compliant

Molded Sheets: 3/8" - 4" (9.52mm - 101mm) thick to a maximum size of 48" (1200mm)

Sheets may be supplied as cut pieces or machined in to individual shapes.

Rod: 1/4" - 5" (6.35mm - 127mm) diameter up to 118" (3m) length

Tube: 5/8" - 6" (15.87mm - 152mm) diameter up to 118" (3m) length  
PTFE thin wall tubing in a variety of sizes and colors

Available as semi finished product or machined components.

Please contact our technical team with your specific requirements.

## Detectathene Detectable Food Grade UHMWPE

Specifically developed for the Food, Pharmaceutical, Packaging, Bottling & Canning, General Engineering Industries this unique Detectamet "Detectathene" a metal detectable ultra high molecular weight polythene is suitable for use in the following applications: \*Wear Strips, Guide Rails, Corner Wearbends, Chain Guides, Bearings, Bushes, Scrapers, Rollers, Idler Wheels, Liners, General Machined Parts etc.

\*In addition to these applications we are able to manufacture parts to your specification.

- Metal Detectable
- X Ray Visible
- Approved for direct contact with food
- Excellent wear resistance
- High Impact Resistant
- Easy to Machine
- Self Lubricating (good bearing properties)
- Abrasion Resistant
- Water repellent
- Acid resistant
- Corrosion resistant
- Vibration & noise dampening
- Blue Color
- Chemical Resistant
- Lightweight
- Cost Effective
- Dirt Repellent
- Suitable for low temperature environments -436°F (-260°C) - +176°F(+80°C)

Sheet Sizes Available:

- 2020mm x 1010mm (2.21 yards x 1.1 yards)
- 3030mm x 1010mm (3.31 yards x 1.1 yards)
- 2020mm x 1220mm (2.21 yards x 1.33 yards)
- 2440mm x 1220mm (2.67 yards x 1.33 yards)
- 3050mm x 1220mm (3.34 yards x 1.33 yards)

Thicknesses Available:

- 8, 10, 12, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 70, 80, 90 & 100mm
- 0.31", 0.39", 0.47", 0.59", 0.79", 0.98", 1.18", 1.38", 1.57", 1.77", 1.97", 2.17", 2.36", 2.76", 3.15", 3.54", 3.94"

Also available as a rod in diameter from 25mm (0.98") to 200mm (7.78")  
Lengths available 1m (1.09yds), 2m (2.19 yds) and 3m (3.28yds).

## Detectamet Detectable PA6 Filled

High wear and fatigue resistance  
Lower moisture absorption than standard PA6  
Metal and visual detection by blue Color  
Detection by x-ray also possible  
Continuous use temperature up to 85°C (185°F)

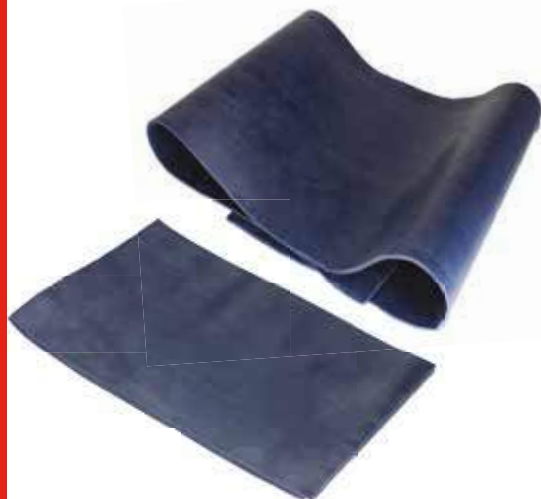

Applications

- Thrust Washers
- Seals
- Rolls

Sizes

- Extruded Rods 30/50/80mm x 1000/3000mm  
1.18"/1.97"/3.15" x 1.09yards/3.28yards
- Extruded Plates 20/40/80 x 610 x 1000/3000mm  
0.79"/1.57"/3.15" x 1.09yards/3.28yards

## Detectathane Polyurethane Belt

Detectathane is part of a new series of film grade polyester-based thermoplastic polyurethanes (TPU), specifically targeted for extruded profiles, film and sheet applications, molded parts, and other high end extrusion applications. Detectathane exhibits excellent abrasion resistance and toughness, and conforms to FDA food contact directives and has been approved for use by the USDA. (Equipment Acceptance Certificate)

Detectamet are also available to manufacture extrusions/belts to suit your specific applications. Please contact us with your requirements.

Color: Blue

Melting Point: 350° - 385°F or 176°C - 196°C

Tear Strength: 535lbs/in (0.24mt/in)

For further technical data please contact us.

## Detectable Polythene

Recognizing the issue of risk of film contamination in the food and pharmaceutical processing industry, Detectamet have developed a unique metal detectable polythene film.

The Detectamet Detectable film replaces standard thick blue polyethylene film with a stiffer, stronger film that is detectable down to very small particle sizes by the standard metal detection systems already in place on food processing lines. Detectamet Polythene is available in sheet, reel or bag format in a wide range of sizes and Colors to suit many applications.

## Detectable Mouse Box

A traditionally sized box with a host of new features, many of which are exclusive to the Detectable Mouse Box. Larger and more enticing to mice.

New user-friendly locking system with a universal stainless steel key.

CODE	DESCRIPTION	PACK QTY
501-P01	Detectable Mouse Box	50
504-T125	Metal Key to Suit Detectable Mouse Box	1

## Detectable Handle Stainless Steel Scraper

High quality heavy duty detectable gasket scrapers. Ideal for gasket scraping, removal of rust, grease or other similar debris from difficult to reach areas.

Made with a stainless steel blade for extra strength, durability and long service life. The handle is easy to grip and manufactured from Detectamet's detectable plastic.

CODE	DESCRIPTION	PACK QTY
586-W11-Q03-S235	Stainless Steel Scraper - 20mm wide blade	1
586-W11-Q03-S234	Stainless Steel Scraper - 16mm wide blade	1
586-W11-Q03-S233	Stainless Steel Scraper - 12mm wide blade	1

## Detectable Polythene Bags & Liners

Recent internal industry reports on sources of physical contamination of food found that at least 34% of incidents involved process and product packaging. The New Fully Detectable Bag offers the food industries a less risky means of packaging for bulk handling in food warehouse storage and shipping.

Can be made in a variety of widths, lengths, thicknesses, Colors and films to suit all your applications and can be made plain or printed in up to 6 Colors.

Suitable applications for Detectable Polythene Bags, Liners & Covers include:

- Food bags
- Bin liners
- Box liners
- Extra large heavy duty ingredients bags
- Dolav liners
- Pallet covers
- Sheets and film

## Detectamet Detectable Compounds

Detectamet are able to offer metal detectable and x-ray visible compounds in a variety of different colors and grades including ABS, nylon and polypropylene. Contact our sales office on +1 (804) 303-1983 or [sales@us.detectamet.com](mailto:sales@us.detectamet.com) for more information.
